## KODADA INSTITUTE OF TECHNOLOGY \& SCIENCE FOR WOMEN Computer Science \& Engineering.

## Part A: Institutional Information

## 1. Name and Address of the Institution

KODADA INSTITUTE OF TECHNOLOGY \& SCIENCE FOR WOMEN,

KODADA INSTITUTE OF TECHNOLOGY \& SCIENCE FOR WOMEN, NEAR RANGANI GUDI, ANANTHGIRI ROAD, KODADA - 508206 NALGONDA DT, TELANGANA.

## 2. Name and Address of Affiliating University

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY, HYDERABAD
3. Year of establishment of the Institution:

2008
4. Type of the Institution:

| University | Autonomous |
| :--- | :--- |
| Deemed University | Affiliated |
| Government Aided |  |

5. Ownership Status:

| Central Government | Trust |
| :--- | :--- |
| State Government | Society |
| Government Aided | Section 25 Company |
| Self financing | Any Other(Please Specify) |

6. Other Academic Institutions of the Trust/Society/Company etc., if any:

| Name of <br> Institutions | Year of <br> Establishment | Programs of <br> Study | Location |
| :---: | :---: | :---: | :---: |
| NILL | NILL | NILL | NILL |

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 1.1.1.Vision of the Department

## Department Vision

The Department envisions extending Computer Science and Engineering education that enhances confidence, competence and commitment in the course seeking rural girl students.

### 1.1.1.Mission of the Department

| Department Mission |  |
| :---: | :--- |
| MD \# | Statements |
| MD1 | Providing quality education employing evolving and effective <br> teaching techniques and methods. |
| MD2 | Providing infrastructure that inspires in both teachers and the <br> taught innovation \& research |
| MD3 | Motivating faculty and students to aim at achieving admirable <br> professional skills in computing that impact industry and <br> individuals |

### 1.2.State the Program Educational Objectives (PEOs)(5)

| PEO \# | Statement |
| :---: | :--- |
| PEO1 | Graduates of program will have complete command over all key <br> principles of hardware and software areas. |
| $\mathbf{P E O 2}$ | Graduates of program will develop skills to identify a real life <br> situation, analyze the problem, formulate a solution and help <br> industry and individuals overcome issues. |
| $\mathbf{P E O 3}$ | Graduates of program will cultivate professional skills, develop <br> soft skills and be ready with complete skill set demanded by <br> industry or higher learning centers. |

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 1.3.Indicate where the Vision, Mission and PEOs are published and disseminated among stakeholders (10)

The vision, Mission and PEOs are disseminated to the stake holders of the institution.

The Stakeholders are:

### 1.3.1. Stake Holders of KITS COLLEGE, KODAD

The institution has two different types of stake holders such as internal and external stakeholders shown in fig: 1.3.1

Fig: 1.3.1 Types of Stake Holders

### 1.3.2. Process of Dissemination of Vision, Mission and PEOs

The feedback of all the stakeholders is essential to validate the Program Educational Objectives. Hence, the stakeholders are made aware of vision and mission of the institution along with vision, mission and PEO's of the department through various publishing and dissemination methodologies as illustrated in the Fig. B.1.3.2.1.

Fig. B.1.3.2.1. Ways of publishing and disseminating the Vision, Mission and PEO's

The Vision, Mission and PEOs of the department are published at:
> College Website - www.kitskodad.in
$>$ HOD's Chamber
> Faculty Rooms
> Laboratories
> Corridors of the Department
> Department Library.

The following platforms are used to disseminate the Vision, Mission and PEOs of the department among Stake holders in order to educate them and to get their support in reaching out the goals.
a) College Academic Committee/College Advisory Board Meetings Principal along with Vice Principal, HODs and other members.
b) Induction Program / Orientation Program - Students and Parents.
c) Parent Teacher Meeting - Parents.
d) Campus Recruitment Drives - Employers.
e) Alumni Meet - Alumni.
f) Workshops/seminars

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

a) College Academic committee/College Advisory Board Meetings Principal along with Vice Principal, HODsand other members Committee ratifies the Vision, Mission statements of institution, department and later PEOs of each program and reviews the progress in successive meetings.
b) Induction Program (Fresher's) - Students and Parents: The head of the institution along with Vice Principal will introduce the principles, objectives and culture of the institution. The head of the department will introduce the department through Vision, Mission and PEOs.
c) Parent-Teacher Meeting - The head of the institution, vice principal, head of the department and the concerned faculty members will address the activities initiated in the institute/department to achieve the objectives. Vision, mission and PEO's are shared among the parents. Future course of action will be discussed.
d) Campus Recruitment Drives - The Vision and Mission of the institute \& department and PEO's are shared among the employers.
e) Alumni Meet - During the Alumni meet, the opinions and suggestions from the alumnae are collected and considered to improve the attainment.
f) Workshops/Seminars- Participants from various colleges will participate in the workshops and seminars. Resource persons are invited from renowned institutes and industries. During these seminars and workshops Vision, Mission of Institute \& Department and PEO's are shared.

### 1.4. State the process for defining the Vision and Mission of the Department, and PEOs of the program(25)

(Articulate the process for defining the Vision and Mission of the department and PEOs of the program)

Vision statement of the department is relatively broad and is in line with the vision of the institute. Mission statements of the department are the immediate actionable statements that are aimed to achieve the Program Educational Objectives, while keeping in view the broad vision of the department. Both the vision and mission statements are defined after a rigorous process of discussion and brainstorming at various levels. The Correlation between PEOs and PO/PSO a key for validation of mission of the department is done by Program Outcome Assessment Committee (POAC) of the department. The Department Advisory Board (DAB) plays a key role in the defining of the statements. The final draft is put up to the Internal Quality Assessment Cell (IQAC) of the institution for further discussion and approval. The constitution and functions of the various committees
concerned are detailed below:

## 1. PROGRAM OUTCOME ASSESSMENT COMMITTEE (POAC)

| Features | Details |
| :---: | :---: |
| Functions | Continuous Assessment of the program by reviewing various inputs received from COACs, and evaluation of PEOs, POs and PSOs for improvement. |
| Members | Senior Professor, Head of the Department |
| Aspects to be Reviewed/ considered | Feedback/Survey reports from external stakeholders such as Alumni, Industry, Parents of Students and internal stakeholders such as employees, faculty, students etc. to recommend on the issues related to : <br> - Infra structure and Lab facilities <br> - Evaluation of PEOs, POs and PSOs for improvement. <br> - Curricular gaps (pre-requisite gaps, course gaps, program gaps) and action plans <br> - PO attainments, their deficiencies, and corrective measures <br> - Faculty Development Programs (FDP) <br> - Student achievements <br> - Strengths and weaknesses of the program |
| Minutes Sent to | Department Advisory Board |
| Meeting Frequency | Once in a Semester |

## 2.DEPARTMENT ADVISORY BOARD (DAB)

| Features | Details |
| :---: | :---: |
| Functions | This is a core committee of the department constituted to help the decision making process of the matters pertain to department with respect to: <br> $>$ Academics <br> $>$ Infrastructure <br> $>$ Facilities <br> > Student support Systems <br> > Short and long range goals including Vision, Mission and PEOs. <br> Based on the inputs received from POAC, and has the additional job of: <br> $\checkmark$ Revision/Refining of the statements: COs, PSOs, PEOs, Vision and Mission if necessary. <br> $\checkmark$ Evaluation of curricular gaps. <br> $\checkmark$ Faculty Development Programs. |

| Meeting Frequency | Once in a Semester |  |

### 1.4.1. Process for defining the Vision and Mission of the Department

Vision statement of the department is relatively broad and is in line with the vision of the institute. Mission statements of the department are the path ways that are aimed to achieve the Program Educational Objectives, while keeping in view the broad vision of the department. Both the vision and mission statements are defined after a rigorous process of discussion and brainstorming at various levels.

## Process of defining vision and mission of the department:

The department defined the vision and mission through a consultative process involving the stakeholders of the department. The vision and mission of the department are ascertained by the following steps:

1. The Department committee conducts SWOT Analysis by collecting inputs from all the department stakeholders.
2. Vision and Mission of the University and Institute are taken as the base by the Department Advisory Board (DAB) for framing draft copy of department Vision and Mission.
3. The Views of stakeholders namely: Students, Staff, Alumni, Employers, Parents and Academic peers are considered to review and refine the draft copy of Vision and Mission.
4. The DAB reviews the Vision and Mission and forwards it to the Internal Quality Assessment Committee (IQAC) for ratification.
5. The Vision and Mission of the department will be published upon ratification of Internal Quality Assessment Committee (IQAC), otherwise considered for revision.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

The process is described in the following figure Fig B.1.4.1:

Fig B.1.4.1: Process for defining department vision and mission

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 1.4.2.Process for defining PEOs of the program

Program educational objectives are broad statements that describe the career and professional accomplishments that the program is preparing its graduates to achieve. PEO's are the key statements defining the aim of the program that state the skills the students graduating through the program acquire or are prepared to acquire to become able practitioners or leaders in the profession, or to contribute to research towards development of state-of-the-art technologies within a few years after graduation. Thus PEOs are the broad statements that would help to design the curriculum ensuring that the requisite components are embedded in the syllabus and instructional process, while also focusing on Program Outcomes. PEO's are defined after a rigorous process of discussion and brainstorming at various levels.

The department defined the PEO's through a consultative process involving the various stakeholders of the department. The following steps are taken by Department Advisory Board in defining PEOs of the department:

1. Institute Vision \& Mission and Department Vision \& Mission are taken as the base.
2. Define PEOs by considering inputs from various stakeholders, discussion with Program Outcome Assessment Committee and other committee members.
3. The DAB reviews the PEOs and forwards it to the Internal Quality Assessment Committee (IQAC) for ratification.
4. The PEOs of the department will be published upon ratification of the Internal Quality Assessment Committee (IQAC), otherwise considered for revision.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

The process is described in the following figure Fig. B.1.4.2:

Fig B.1.4.2: Process for defining Program Educational Objectives

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 1.5. Consistency of PEOs with Mission of the

## Department(15)

Consistency of defied PEOs with Mission of the department is evaluated and presented in Table B.1.5.1.

Note:M1,M2....Mn are distinct elements of Mission statement.Enter correlation levels 1,2or3 as defined below:

1:Slight(Low)2:Moderate(Medium)3:Substantial(High)
If there is no correlation put"-"

| PEO\# /M\# |  | Mission |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  | MD1 | MD2 | MD3 |
|  | PEO-1 | 3 | 3 | 3 |
|  | PEO-2 | 3 | 2 | 2 |
|  | PEO-3 | 3 | 2 | 3 |

|  | PEO | Mission | Consistency with Mission of the Department | Description of PEOs and their relevance to the Mission statements |
| :---: | :---: | :---: | :---: | :---: |
| PEO1 | Graduates of program will have complete command over all key principles of hardware and software areas | Providing quality education employing evolving and effective teaching techniques and methods | Strongly maps with mission statement 1 | The Innovative Teaching Learning Practices adopted by the faculty helps students assimilate principles practices computing techniques. |
|  |  | Providing infrastructure that inspires | Strongly maps with mission statement 2 | > Sophisticated laboratory. <br> > Usage of modern |

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

|  |  | in both teachers and the taught innovation \& research |  |  | tools are available in the laboratory Advanced learning facilities in 24/7 laboratory as well as in the library. Learn by doing process. |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Motivating faculty and students to aim at achieving admirable professional skills in computing that impact industry and individuals. | Strongly maps with mission statement 2 |  | Faculty with <br> research  <br> orientation helps <br> students to <br> rolve  <br> real world <br> problems and <br> quality teaching <br> shall make <br> graduate the <br> lersatile a <br> professional  <br> engineer.  |

| CRITERION2 | PROGRAM CURRICULUM AND |
| :--- | :--- | :--- | :--- |
|  | TEACHING-LEARNING |
|  | PROCESSES |

### 2.1 PROGRAM CURRICULUM (20M)

This section gives details of program curriculum of 4-Year B.Tech
Computer Science and Engineering (CSE) and explains learning process and practices of this department program.

Graduate engineering programs are spread over a period of four year learning cycle, which have been logically divided into components that facilitate designing of courses to build up the knowledge base and experimental skills of students in a systematic manner. Learning over the four years are distributed to create a clear and logical progression from building up foundations, creating core competency in the chosen domain and progression to advanced topics in the domain. Care has been taken to intersperse the advancement in the chosen field with courses from other disciplines that are relevant and necessary to provide breadth and enable and encourage a multi-disciplinary approach to engineering solutions. Language and communication skills are learnt simultaneously and management courses are interleaved with other learning schema to create a tapestry that leads to attainment of definitive program outcomes and also provides avenues for further development.

## ABOUT UNIVERSITY CURRICULUM:

"Versatility" is the word that can be used for defining the subjects and its contents of the curriculum of this undergraduate program. With the knowledge skills acquired, the graduates of this program are becoming the versatile professionals can scatter in real world by positioning themselves in the different fields of Computer Science and Engineering. An effective program curriculum is provided by the parent university as

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

evident that, while designing the curriculum for the program it conducts:

- BOS
- meetings
- Industry-Institute interaction meetings
- Institutional review meetings
- Studies: needs of the industries and society

## ROLE OF DEPARTMENTAL COMMITTEES

Two committees in coordination to each other are working at the department level to study the university curriculum for gaps in conjunction with PO/PSO attainments.

With respect to the program curriculum:

- The Departmental Committees evaluates the curriculum given by the JNTUH for attainment of Program Outcomes (POs)
- Obtaining feedback from campus recruiters (about students performance), the departmental committees designs the Program Specific Outcomes (PSOs).

The functions of the departmental committees are described below:

| 1.COURSE OUTCOME ASSESSMENT COMMITTEE (COAC) |  |
| :---: | :---: |
| Features | Details |
| Functions | This committee reviews COs, CO-PO mapping, curriculum gaps, course exit survey, and suggests steps for improvement |
| Members | Course Experts from various courses chaired by Senior Professor/Head of the Department. |
| Aspects to be Reviewed/ considered | - Course outcomes in all courses, <br> - Result analysis, <br> - CO attainment, <br> - Curricular gaps, <br> - Suggestions from Faculty, if any |

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

|  | • Suggestions from students, if any <br> • Action plans for improvement and corrective <br> measures |

| 2. PROGRAM OUTCOME ASSESSMENT COMMITTEE (POAC) |  |
| :---: | :---: |
| Features | Details |
| Functions | Continuous Assessment of the program by reviewing various inputs received from COACs, and evaluation of PEOs, POs and PSOs for improvement. |
| Members | Head of the Department/Senior Professor and Senior Faculty Members |
| Aspects to be Reviewed/ considered | Feedback/Survey reports from external stakeholders such as Alumni, Industry, Parents of Students and internal stakeholders such as employees, faculty, and students etc. to recommend on the issues related to Infrastructure and Lab facilities. Evaluation of POs, PSOs and PEOs forImprovement.Curriculargaps(prerequisitegaps,coursegaps,p rogramgaps)and action plans <br> - PO attainments, their deficiencies, and corrective measures <br> Faculty Development Programs(FDP) <br> Student achievements <br> Strengths and weaknesses of the program |
| Frequency of Meeting | Once in a semester |
| Minutes <br> Sent to | Department Advisory Board |

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

| 3.DEPARTMENT ADVISORY BOARD (DAB) |  |
| :---: | :---: |
| Features | Details |
| Functions | This is a core committee of the department constituted to help the decision making process of the matters pertain to department |
| Members | Head of the Department, Senior faculty members, Alumni and Parents |
| Aspects to be Reviewed/ considered | - Academics <br> - Infrastructure <br> - Facilities <br> - Evaluation of curricular gaps. <br> - Development Programs <br> - Revision/Refining of the statements: COs, PSOs, PEOs, Vision and Mission if necessary. |
| Frequency of Meeting | Once in a semester |
| Minutes Sent to | Internal Quality Assessment Committee |

## STUDY OF VERSATILITY IN UNIVERSITY CURRICULUM:

The COAC committee studies the university curriculum for its versatility and adaptability in respect of vision of the department. For the assessment years 2017-18, 18-19, 19-20 and 20-21, the curriculum is spanned in four regulations R13, R15, R16 and R18.

| Academic <br> Year/ <br> B.Tech <br> Year | Curriculum provided Regulation\# for |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | CAYm2 | CAYm1 | CAY | AY |
| IV | R13 | R18 | 2018-19 | 2019-20 | 2020-21

The university curriculum in four regulations that spread in four years is classified as:

|  | \% of Courses offered to <br> Graduates |  |  |  |  |
| :---: | :--- | :---: | ---: | ---: | :---: |
| S. No | TITLE OF THE <br> SUBJECT | $\mathbf{R 1 3}$ | $\mathbf{R 1 5}$ | $\mathbf{R 1 6}$ | R18 |
| 1 | Core subjects | 53.44 | 53.44 | 46.15 | 43.54 |
| 2 | Humanities and <br> Management <br> sciences | 10.34 | 10.34 | 13.84 | 08.06 |
| 3 | Basic sciences | 10.34 | 10.34 | 13.84 | 11.29 |
| 4 | Engineering <br> sciences | 10.34 | 10.34 | 6.15 | 14.51 |
| 5 | Electives | 8.62 | 8.62 | 15.38 | 16.13 |
| 6 | Project /Seminar/ <br> viva | 6.88 | 6.88 | 4.6 | 06.45 |

Contribution of curriculum for R13, R15, R16 \& R18 Regulation

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## OBJECTIVE OF THE DEPARTMENT TO PREPARE GRADUATES FOR DIFFERENT DOMAINS:

The program aims to give required skills to graduates to place themselves in different sectors. The Department has the objective of placing its graduates in all the sectors classified into 4- domains as:

| Domain | Classification | Targeted <br> Sector |
| :---: | :--- | :---: |
| D1 | Computing Engineer- The curriculum is <br> designed in such a manner that, the student <br> must be able to be placed in ITSector. | Engineers in IT <br> Sector. |
| D2 | On-stream Engineer- The curriculum is <br> designed in such a manner that, the student <br> must be able to be placed in any industry. | Engineers in <br> Industry. |
| D3 | Organized Engineer- The curriculum is <br> designed in such a manner that, the student <br> must be able to be placed in industry with <br> managerial skills. Able to work as an <br> individual or team member, with soft skills, <br> goodcommunication skills, ethical values as <br> a professional. | Manager in <br> industry. <br> Perpetual Engineer- The curriculum is <br> designed in such a manner that, the student <br> must be able to continue theresearch with <br> life-long learning ability. |
| \& Development. |  |  |

## PROGRAM CURRICULUM REQUIREMENTS FOR DIFFERENT DOMAINS:

Apart from the knowledge acquired through core subjects (70\%), the program curriculum includes other relevant subjects to facilitate graduates to be placed in any domain

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

| Domain <br> Engineer | Domain\# | Apart from the core subjects other <br> subjects included in program Curriculum |
| :---: | :---: | :---: |
| Computing <br> Engineer | D1 | Basic sciences, Mathematics and <br> communication skills |
| On-stream <br> Engineer | D2 | Open Electives: <br> Multidisciplinary/Interdisciplinary courses |
| Organized <br> Engineer | D3 | The courses related to communication skills <br> and Management. |
| Perpetual <br> Engineer | D4 | Professional Electives: The courses related to <br> the Latest technology enhancements <br> meeting the needs of the industry. |

2.1.1 State the process used to identify extent of compliance of the University curriculum for attaining the Program outcomes and specific Outcomes as mentioned in Annexure I. Also mention the identified curricular gaps if any (10)
a) Process used to identify compliance of the university curriculum for attaining Pos \& PSOs
The program curriculum offered to the graduate should ensure that, at the end of 4- year program all the POs as well as the Program Specific Outcomes (PSOs) have to be attained by the department. Developing a successful outcome-based curriculum involves aligning teaching and assessment methods with the intended learning outcomes of the program.CurriculummappingtoprogramoutcomesandProgramspecificoutc omesprovides a means to examine the extent to which these outcomes are being addressed and assessed in the curriculum. This mapping can also be used to identify gaps in the curriculum, as well as how these gaps can be addressed.
The PROGRAM OUTCOME ASSESSMENT COMMITTEE should understand the curriculum designed for its:

- Strengths for successful building of professional career of student.
- Gaps that have a detrimental effect on student's opportunity to learn.

Strengths and gaps are used to identify the extent of compliance of the curriculum for attaining the

Program Outcomes and Program Specific Outcomes through collecting following feedbacks.
i. Feedback from Students- Graduate Exit Survey

The Graduate Survey form questionnaire about the program is prepared by the program coordinator for the students. This serves as a feedback at end of the program to gauge the degree of attainment of POs and PSOs.

## ii. Feedback from alumni

Questionnaires prepared by the program coordinator and are given to the alumni. It will be done once in every year for the attainment of POs and PSOs.

## iii. Feedback from the employers

The Survey questionnaire to employer is prepared by the program coordinator and is given to the recruiters during recruitment process. Their feedback is analyzed to gauge the degree of attainment of program outcomes.

## iv. Feedback from parents

The Program coordinator will collect the feedback from parents about their experience and also their wards opinion on the program.

The vision, mission and PEOs of the department can be seen in Criteria1 of this SAR. The PSOs of the department finalized by committees are given below:

## PROGRAM SPECIFIC OUTCOMES (PSOs)

PSO1: Computing techniques: Apply the Knowledge about principle of programming languages, computer Algorithms, databases, system software and computer network for the interconnection

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

PSO2: Computer Product and Application Development: Interpret and analyze the Problem, formulate an efficient hardware and software solution for the real world. Socio-industry related problems and needs using computing methodologies and latest technologies

PSO3: Successful Career and Entrepreneurship Perspectives: Fulfilling desire by attaining employment, excel in competitive examinations, higher studies, research and initiate Startup's
b. List the curricular gaps for the attainment of defined POs \&PSOs

The Curriculum for the program is designed to meet the POs and PSOs through PEOs. The extent of compliance of the university curriculum for attaining POs and PSOs is done in three stages.
i. Stage-1: Mapping of PEOs with POs and PSOs.
ii. Stage-2: Mapping of COs with POs and PSOs.
iii. Stage-3: Identification of Curriculum Gaps.

Stage-1: Mapping of PEOs with POs and PSOs
Mapping of PEOs with mission statements of the program indicate the accomplishment the Vision of the department through the Mission Statements. Mapping of Mission statements with PEOs along with justification is presented in Criteria-1.

| PEO STATEMENTS | DM1 | DM2 | DM3 |
| :--- | :---: | :---: | :---: |
| PEO 1: Graduates of program will have <br> complete command over all key principles of <br> hardware and software areas | 3 | 3 | 3 |
| PEO 2: Graduates of program will develop <br> skills to identify a real life situation, analyze <br> the problem, formulate a solution and help <br> industry and individuals overcome issues | 3 | 2 | 2 |
| PEO 3: Graduates of program will cultivate <br> professional skills, develop soft skills and be <br> ready with complete skill set demanded by <br> industry or higher learning centers. | 3 | 2 | 3 |

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

The PEOs of the department were designed to prepare the graduates to possess the ability to opt as an engineer in the chosen domain.

| Graduate wishes to <br> become as a | Domain\# | PEO \# <br> relevance |
| :---: | :---: | :---: |
| Computing Engineer | D1 | PEO-1 |$|$| Pn-stream Engineer | D2 | PEO-2 |
| :---: | :---: | :---: |
| Organized Engineer | D3 | P PEO- <br> Perpetual Engineer |
| D 4 | PEO-1,PEO- <br> 2, PEO-3 |  |

The Department Committee had broadly mapped the POs and PSOs to the following domains. Mapping of PEOs with POs and PSOs of the program indicate the suitability of the curriculum with the overall prerequisite to accomplish the vision of the department. Below Table leads to a certain extent the compliance of the curriculum to achieve the vision through set of mission statements.

| Graduate wishes to become as a | Domain\# | PEO \# relevance | Skills required in accordance to PO\# | Skills required in accordance to PSO\# |
| :---: | :---: | :---: | :---: | :---: |
| Computing Engineer | D 1 | PEO-1 | $\begin{gathered} 1,2,3,4,5,6,7,8,9,10,11 \\ 12 \end{gathered}$ | 1,2 |
| On-stream Engineer | D 2 | PEO-2 | 1, 2,5, 6, 8, 9, 10,11 | 1,3 |
| Organized Engineer | D 3 | $\begin{aligned} & \text { PEO-2, } \\ & \text { PEO-3 } \end{aligned}$ | 1,2,6, 8, 9, 10, 11 | 1,2 |
| Perpetual <br> Engineer | D 4 | PEO-1, <br> PEO-2, <br> PEO-3 | $\begin{gathered} 1,2,3,4,5,6,7,8,9,10,11 \\ 12 \end{gathered}$ | 1,2,3 |

| $\begin{aligned} & \text { 管 } \\ & \text { W } \end{aligned}$ | PO\# |  |  |  |  |  |  |  |  |  |  |  | PSO\# |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 |
| 1 | $\checkmark$ | $\sqrt{ }$ | $\sqrt{ }$ | $\sqrt{ }$ | $\checkmark$ | $\checkmark$ | $\checkmark$ | $\sqrt{ }$ | $\sqrt{ }$ | $\checkmark$ | $\sqrt{ }$ | $\checkmark$ | $\sqrt{ }$ | $\checkmark$ |  |
| 2 | $\sqrt{ }$ | $\sqrt{ }$ |  |  | $\checkmark$ | $\checkmark$ |  | $\sqrt{ }$ | $\checkmark$ | $\sqrt{ }$ | $\sqrt{ }$ |  |  | $\sqrt{ }$ | $\checkmark$ |
| 3 | $\checkmark$ | $\checkmark$ | $\checkmark$ | $\checkmark$ | $\checkmark$ |  |  |  |  |  |  |  | $\sqrt{ }$ | $\checkmark$ | $\checkmark$ |

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Stage-2: Mapping of COs with POs and PSOs.
As stated by NBA, attainment of Program Outcomes (POs) by the program is the evident that the graduate of the program has acquired knowledge skills and attitude. With these, the graduates can copeup with all the challenges as an engineer of a particular domain (society engineer, on stream engineer, organized engineer or as a perpetual engineer).
The curriculum of this program aims for enriching knowledge to graduates in different domains.
Note: If curriculum gap does not exists, then skip Stage-3
The Program Outcome Assessment Committee had made an extensive study to understand the relevance of every course prescribed for graduate by the university with respect to domains (Pos and PSOs related to domain). The study results are furnished in the following tables Note: Value under a particular course indicates corresponding POs are attained by offering the course.

Also value under particular PSO\# indicates corresponding PSO\# is attained by offering the course.

The conclusions are:

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Stage-3: Identification of the gaps in the curriculum

Apart from the internal review process, it is also necessary to ensure that the curriculum remains relevant in the face of changes in technology and industrial/environmental requirements. This is done through obtaining inputs from industry as well as from Alumni who provide feedback on the felt gaps in education and knowledge that are creating barriers to performance and growth. These gaps may evolve overtime and need to be addressed in a responsive manner. The departmental committee is focusing on these aspects and in consultation with internal and external committees is taking necessary measures. The inputs are examined by the Departmental Committee to identify possible gaps in curriculum. The Departmental committee headed by the HOD and the Subject Expert are asked to Examine these perceived gaps in detail.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Committee observes that Curriculum gaps can be unfolded into three types:
a. The quantum of duration for effective coverage of the course contents in the stipulated time is not enough. Such gaps are identified as Course Gaps.
b. It is required for the introduction of a new prerequisite course to encompass the body of knowledge and to integrate it with the rest of the program. These gaps are identified as Prerequisite Gaps.
c. The perceived gaps are due to not inclusion of an elective course which actually covers the required materials. These gaps are identified as Program Gaps

## Process of covering Course gaps

University prescribes total number of periods for the coverage of syllabus of each course. Coverage of these gaps would require enrichment of course content and also in enhanced time to cover the material, unless it is found that some material being covered is now redundant and may be de-emphasized. However, considering that the syllabus and curriculum are mandated by the University, the Department can only make recommendations through the Department Committee for these issues to be incorporated into the syllabus. In the meantime the enhanced coverage is provided through extra classes/ handouts/ assignments/ workshops/ seminars.

Process of covering Pre requisite Gaps.
Coverage of these gaps would require the introduction of new courses designed to cover the content that would fill the gap in a well-designed manner. The Department Committee makes suitable recommendations through the College Academic Committee to the University to consider such inclusions. Given the extensive nature of coverage required, the gap cannot be completely covered through College level interventions. However some amelioration can be achieved through conduct of workshops/video lectures/additional classes

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Process of covering Program Gaps

The felt need of a body of knowledge that is covered through electives perhaps warrants that the same be converted into a required course and some other course which may now be redundant may be converted to an elective or eliminated. Decisions on these issues are again within the domain of the appropriate Board of Studies at the University. At the College level, students are advised as a group as well as through mentors to elect for the course.

## C. Identified Curriculum Gaps:

The following tables illustrate the findings of Department Academic Committee for curricular gaps and the remedial actions undertaken to fill the gaps.

| AY: 2020-21 |  |  |  |  |  |  |  |

## CONCLUSIONS

Above study process used to identify extent of Compliance of the university curriculum and remedial actions that the department had taken to fulfill curricular gaps had proved that the department could attain the program outcomes and program specific outcomes

### 2.1.2 State the delivery details of the content beyond the syllabus for the attainment of POs and PSOs (10)

The following are the means and methods used to provide the content required for the students beyond the syllabus for the purpose of attainment of POs and PSOs. The department organizes the following specific cocurricular activities.
$\checkmark$ Organizing Guest Lectures
$\checkmark$ Organizing workshops
$\checkmark$ Organizing Employability skill improvement training programs
$\checkmark$ Organizing Industry Visits
$\checkmark$ Internships/Summer Training
Organizing Guest Lectures, workshops and Employability skill improvement training programs:

### 2.2 TEACHING LEARNING PROCESS (100)

Attainment levels of POs and PSOs of the program are greatly influenced by methods adopted by Teachers and the learning processes of the students. Best practices results best outcomes.

### 2.2.1 Describe processes followed to improve quality of teaching and learning (25)

Department of CSE has a unique teaching \& learning. Apart from the conventional classroom teaching practices, various technical \& non-technical activities are conducted to strengthen the student skills.
a) Adherence to Academic calendar (Institute and Department calendar):

From the college calendar of events a department calendar of events is derived which is specific to the department

| KiTS | KODADA INSTITUTE OF TECHNOLOGY AND SCIENCES FOR WOMEN, KODAD |  |  |  |  |  |  |  |  |

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Department pedagogical initiatives for quality teaching-learning process

The Department is following the below mentioned pedagogical practices for ensuring quality in Teaching - Learning process.

Instructional methods consist of principles and methods used by teachers to enhance and relate training to learners. Learn about these strategies and use them in relation with characteristics of your learners and your training needs include

1. Lecture
2. Lecture combined with Discussion
. Lecture with Quiz
3. Demonstration(Such as a model/laboratory)
4. Presentation
5. Role Play
6. Problem Solving
7. Cooperative Learning(Group discussions/ Exercises)

## Maintenance of Course files:

Lesson plan with course objectives and course outcomes are prepared by the subject handling faculty before the commencement of the semester and is dually approved by the Head of the department and made available to the students. According to the lesson plan, work done has been inculcated in the academic file to ensure coverage of syllabus dually monitored by Head of the department.

For each course, a course file is prepared by the concerned faculty .The course file consists of following items.
> Academic Calendar: Issued by JNTUH, which gives a detailed academic structure, that includes commencement of class work, instruction spells, midterm examinations, preparation of practical and end examinations.
> Syllabus of the subject
> Class timetables
> Individual timetables
> Lesson plan:

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Lesson plans are prepared for each lecture in the teaching plan by the faculty before the commencement of the semester and it is duly approved after careful examination by the Head of the Department and made available to the students. The lesson plan encompasses the learning outcomes and the assessment of outcomes.

Lesson plan with course outcomes are prepared by the subject handling faculty before the commencement of the semester and is duly approved by the Head of the department and made available to the students .According to the lesson plan, work done has been inculcated in the academic file to ensure coverage of syllabus is monitored by Head of the department.
> Question papers (Internals)
> Question papers (University)
> Course Description
> Lecture notes
> Question Bank: Question banks are prepared for each topic in the course based on the course Outcomes and considering the nature of the university question papers . The previous question papers of University are also maintained in the course files .Assignment questions list and are included in the course files.

## ICT Supported Learning

Students are advised to register for MOOCs (Massive Open Online Courses) and watch NPTEL and SWAYAM videos and the students are encouraged to write assignments. In class room students are encouraged to give presentations to improve their basic knowledge, communication skills in the respective subject.

## Well Established Computer Lab

In addition to latest i5 processor computers available in the department computer lab, the College has a air conditioned computer lab with all the facilities of audio \& video systems. Students can view NPTEL video lectures, can improve their skills.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

COMPUTER LAB - 1

COMPUTER LAB - 4

COMPUTER LAB - 3

COMPUTER LAB - 2

## Lectures by Eminent personalities:

Guest lecturers by eminent people from Industry, Academic are arranged by the Department for students.

## Impact of Lectures by Eminent Personalities

As evident of attainment levels, the Students of CSE have enriched their skills defined by certain POs/PSOs.

## STUDENT SEMINARS:

Seminars are also arranged frequently by the Department. Students exhibit their technical skills. A sample of Technical Seminars organized is presented below:

ACADEMIC YEAR: 2020-21

| $\begin{gathered} \text { S.N } \\ 0 \end{gathered}$ | H.NO | STUDENT NAME | SEMINAR TOPIC | RELAVANCE TO PO\#, PSO\# |

IMPACTING KNOWLEDGE THROUGH ACTIVITY BASED LEARNING

1. NAME OF THE ACTIVITY: CODE CONVERTING

Student Name: K. Krishnaveni (16QU1A0514)
Faculty Name: Ch. Suresh Kumar
Class: B. Tech III Year
Subject: Cryptography \& Network Security
Topic: Converting Plain text in to Cipher text

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

2. NAME OF THEACTIVITY: ROLE PLAY

Faculty Name: A.NANDINI SREE
Class: B. Tech IV Year
Subject: DATA MINING
Topic: Smoothing of Noisy Data using Binning method: Equal-depth (frequency) partitioning

## 3. NAME OF THE ACTIVITY: TEAM WORK

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Faculty Name: K.LAXMAIAH
Class: B. Tech I Year
Subject: Programming for Problem Solving
Topic: Solving a Problem

## 4. NAME OF THE ACTIVITY: DEMONSTRATION

Faculty Name: I.SURYA SEKHAR

## Class: B. Tech II Year <br> Subject: DATA STRUCTURES <br> Topic: TOWERS OF HANOI

## METHODOLOGIES OF DEPARTMENT

> To support weak students \& encourage bright students Methodologies of Department to Support Weak Students Time tables to be provided for remedial classes
> Process to identify weak students: Weak students are identified by mentoring, participation in regular theory and practical classes, assessment based on internal exams \& analyzing the end exam results.
> Process to support weak students: Weak students are encouraged by counseling (guidance in resolving personal or psychological problems), mentoring based on assessment of mid marks.
> Remedial Courses are conducted for the weak students by analyzing the end exam results course-wise and is usually conducted in seminar/library/sports hours/after college hours by the respective/senior faculty.

## Encouragement to Bright Students

> Methodology to identify bright students
Advanced learners (bright students) are identified through the following:

The advanced learners are encouraged to participate in more number of paper presentations, symposiums, conferences, mini-project exhibitions ....etc
$>$ Guided to get internship training with leading industries
> Motivated to take up competitive exams
> Facilitated to borrow more number of books from Department Libraries
> Self-learning courses are provided for advanced learners and the digital library is provided with NPTEL and other courseware.

## Impact of Bright students encouraging mechanisms:

Department faculty acts as mentors to encourage bright students not only to bring their best academic performances but also to excel in
> Competitive examinations
> Communication \& Presentation skills by participating in various National level Technical Symposiums

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## QUALITY OF CLASSROOM TEACHING:

The following innovative teaching methods are adopted by the faculty:
$>$ A teacher is very engaging and shows the attention of students in all discussions.
> Effective discipline skills, Knowledge of curriculum and standards
> Computers are used for teaching purposes and internet facility is available to students and faculty.
> Faculty members are taking advantage of sources like National Programmed on Technology Enhanced Learning (NPTEL), internet sources for effective teaching.
> Smart Board, LCDs etc .are used for teaching purposes.
> Well-structured lesson plans are prepared for all theory and practical courses, scrutinized by HOD
> Online availability of various journals in the intranet.

## Conduct of Experiments \& Continuous Assessment in the Laboratory

## A. Experimental learning:

Students shall do two laboratory courses per semester from $2^{\text {nd }}$ to $7^{\text {th }}$ semesters. The entire laboratory has excellent facilities for the conduct of the experiments \& detailed instruction manuals are provided. The observations are checked and verified by faculty and record books are maintained systematically.

## ACADEMIC YEAR: 2020-21

| S. <br> No | LABORATORY NAME |  <br> Semest er | $\begin{gathered} \text { REGULAT } \\ \text { ION } \end{gathered}$ | STUDIES | Relavance to PO\#,PSO\# |

| 13Cryptography <br> and Network <br> Security Lab | IV-I | R18 | PO12, |  |  |

Laboratory teaching has been given high importance in the teachinglearning process. The class teacher gives demonstration regarding the conduct of experiment prior to the start of lab. Each lab class teacher maintains the day to day evaluation records of student performance. For all UG laboratory courses, the internal evaluation of practical courses is for $\mathbf{2 5}$ marks, out of 25 marks the day-to-day assessment is for 15 marks \& lab internal for 10 marks and the end semester lab examination carries a weightage of 50 marks. The day-to-day performance of the student in the laboratory includes 15 marks for the conduct of experiment, observation, viva in regular laboratory course, which promotes continuous internal assessment in the laboratory courses.

The faculty member acts as internal examiner and external examiner is appointed by the head of the department for end semester examinations. The Lab external examination is for 50 marks.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Rubrics used for continuous evaluation in every lab session

| Parameters | Allocated Marks | High | Medium | Low |
| :---: | :---: | :---: | :---: | :---: |
| Conduction | 6 | Given Program executed with output. | Given program was partially executed in the lab session. | Given program was not executed in the lab session. |
|  |  | 4-6 Marks | 1-3 Marks | OMark |
| Viva Voce | 3 | Student answered all the viva voce questions | Student Answered only a few viva voce questions | Student did not answer any viva voce question |
|  |  | 2-3 Marks | 1-2 Marks | OMark |
| Record <br> writing | 6 | Completed record was submitted | Record was submitted but incomplete | Record was not submitted in the lab session |
|  |  | 4-6 Marks | 1-3 Marks | OMark |

Rubrics used for Evaluation of Internal Lab Examination:

| Parameters | Allocated Marks | High | Medium | Low |
| :---: | :---: | :---: | :---: | :---: |
| Write up | 4 | Student was able to write Program/algorith mwritten correctly. | Student was able to writ e program partially known. | Student was unable to write program/algor ithm. |
|  |  | 3-4Marks | 1-2 Marks | OMark |
| Execution | 4 | Student was able write the given program with | Student was partially able to write the given | Student was not able to write given program |
|  |  | output. | program. | OMark |
|  |  | 3-4Marks | 1-2 Marks |  |
| Viva Voce | 2 | Student answered all the questions. | Student answered only few question | Student did not answer any question |
|  |  | 2 Mark | 1 Mark | 0 Mark |

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 2.2.2 Quality of internal semester Question papers, Assignments and Evaluation (20)

Initiatives and Implementation details for improving the quality of Internal Semester Question papers (Internal Assessment Test)

Program Outcome Assessment Committee (POAC) examines the question papers before conduct of the examination and ensures that the quality of the question paper is set as per the syllabus and duly following the requirement of COs for the purpose of evaluation.

The performance of students in the university exams and in other competitive exams solely depends how the department conducts and evaluates the internal examinations.
> The department conducts two internal assessment tests at $6^{\text {th }}$ and 12th week respectively.
> Each test covers one and half of the syllabus.
> The tests are conducted for a maximum of 25 marks. (No minimum marks criteria from the university).

## Internal Exam Question Papers:

The duration of the test is one hour and question paper are set to make the student to learn time management
> While setting the question paper all previous university exam papers are taken into consideration.
$>$ According to level of toughness the questions are prepared(viz.,analyzingtheproblems, implementation of modern tools, formulating the problems etc), which is termed as Bloom's Taxonomy. The questions in the question paper will be of three categories:
> One third of the questions is straight and can be answered by all students.
> One third of the questions need analysis and use of content covered as per syllabus.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

$>$ Remaining one third of the questions is not straight. Certain amount of thinking, analysis and mathematical knowledge are required to resolve.

## Assignments

> Assignment issue and submission dates are announced by the respective faculty members.
> Assignment questions are prepared using Bloom's Taxonomy process.
> Surprise tests, quizzes, video links are provided.
> In order to bridge the gap in curriculum, bright students are given some assignment beyond syllabus.

## Evaluation

> The faculties after every internal assessment test they explain the solution of the questions in the class which will enable them to perform well in the final examination.
> The average of the marks obtained from two tests are chosen for the award of internal assessment marks. If a candidate remains absent for all the tests conducted, the Internal assessment marks are marked as "Absent" in the result.
> Assignments are used as a tool for practice and evaluation is based purely on Internal Assessment Test.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Sample Question Paper:

## Sub: JAVA PROGRAMMING BRANCH: CSE

Dur: 1 hr
Date: 12-02-2020

Answer any TWO of the following questions

| Q.No | Questions | Marks | CO\# | CL\# |
| :---: | :--- | :---: | :---: | :---: |
| 1 | How to handle multiple catch blocks for a try block? <br> Explain with an example. | 5 | CO3 | CL3 |
| 2 | What are the benefits of inheritance? Explain the <br> various forms of inheritance with suitable code <br> segments | 5 | CO1 | CL2 |
| 3 | What feature of Java makes it platform independent <br> and portable? | 5 | CO1 | CL2 |
| 4 | How to define a package? How to access, import a <br> package? Explain with examples. | 5 | CO2 | CL2 |

## Impact of Internal Examinations

> Improvement in overall performance of students thus improves the placement andhigher studies.
$>$ The stimulating environment made students to plan their study plan forbetter performance.

### 2.2.3 QUALITY OF STUDENT PROJECTS (25)

## Project-based learning:

The students carry out their project work in their VIII semester. The Department follows standard procedure to ensure that students do a quality project. The students select a project in line with their area of interest. Students are encouraged to do project work on real world examples.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Appropriate methodologies are in place to monitor the project work continuously till the end of the project. At the end of the project, students are encouraged to publish paper in Journals and conferences and apply for patent.

## PART-A: TYPES OF PROJECTS

Classification of projects is done according to following categories:
Application oriented: Projects are performed where the target is to achieve any real life application. In this category of project, design and manufacturing component is less as most of the parts are available on the shelf, which are assembled together.

Design oriented: Design and manufacturing is performed from the scratch. In this category, at least one iteration of design, manufacturing, testing and then modified design is expected.

Research oriented: Extensive review of literature is done, which aims to learn new methods or procedures and validate results.

## Project Group:

> Students are allowed to form groups consisting of minimum two or maximum of five members.
> If the students are not able to form the group, then the project coordinator will help them to form the group

| S.No | Project Work Outcome | Correlation with PO\#/PSO\# |
| :---: | :---: | :---: |
| 1 | Carrying out the Literature survey related to topic | $\begin{gathered} \mathrm{PO} 1, \mathrm{PO} 6 \\ \mathrm{PSO}, \mathrm{PSO} 2, \mathrm{PSO} \end{gathered}$ |
| 2 | Carrying out investigations/conducting experiments / simulations in relation to the problem. | $\begin{gathered} \text { PO2,PO3,PO4,PO5,PO9 } \\ \text { PSO1,PSO2,PSO3 } \end{gathered}$ |
| 3 | Problem Analysis and solution finding for problem | $\begin{gathered} \text { PO2,PO7,PO8 } \\ \text { PSO1,PSO2,PSO3 } \end{gathered}$ |
| 4 | Organization and presentation of results | $\begin{aligned} & \hline \text { PO9,PO10,PO11, } \\ & \text { SO1,PSO2,PSO3 } \end{aligned}$ |
| 5 | Thesis presentation and defense | $\begin{gathered} \text { PO8,PO10,PO11,PO12, } \\ \text { PSO1,PSO2,PSO3 } \end{gathered}$ |
| 6 | Social Relevance, Environment | P06,PO7,PO8 |

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Projects identification and guide allotment process:

The project coordinator instructs the students to identify the project titles and submit the synopsis adhering to the timelines decided by the HOD. Some of the areas identified by the project coordinator are:
> Computer Networks
> Image Processing
> Data Mining
> Security
> Data Bases
> Artificial Intelligence
> Machine Learning

## Process for monitoring and evaluation of project:

- The project internal evaluation shall be done by conducting three internal reviews by the Project Review Committee (PRC).
- Project work is evaluated for 100 marks, 25 marks for internal evaluation and 75 marks for the end semester examination.
- Weekly reviews shall be conducted by respective guides to know the status of projects.
- Rules are prepared for internal evaluation of project.
- The external examination conducted by the committee, the committee consisting of an external examiner, head of the department, the supervisor of the project and a senior faculty member of the department.

## PART-B: RUBRIC FOR B.TECH PROJECT EVALUATION

The department of CSE has developed following rubrics for evaluating quality of projects and for award of marks.

## Rubric for Identification of Best Projects:

$>$ The best project works are identified based on:
$>$ The number of POs/PSOs addressed through project works.
> Internal /PRC Evaluation.
> External Examiner remarks and Marks awarded.
> Outside Participations/Project Expo.

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

| Distribution of Project External Marks |  |  |  |
| :---: | :---: | :---: | :---: |
| S.No | Module Name | Marks | Grand Marks |
| 1 | Carrying out the Literature survey related to topic | 10 |  |
| 2 | Carrying out investigations /conducting experiments/ simulations in relation to the problem. | 15 |  |
| 3 | Problem Analysis and solution finding for problem | 20 | 75 Marks |
| 4 | Organization and presentation of results | 10 |  |
| 5 | Thesis presentation and defense | 15 |  |
| 6 | Social Relevance, Environment | 5 |  |
| Distribution of Project Internal Marks |  |  |  |
| S.No | Module Name | Marks | Grand Marks |
| 1 | Carrying out the Literature survey related to topic | 3 |  |
| 2 | Carrying out investigations /conducting experiments/ simulations in relation to the problem. | 8 |  |
| 3 | Problem Analysis and solution finding for problem | 7 | 25 Marks |
| 4 | Organization and presentation of results | 3 |  |
| 5 | Thesis presentation and defense | 3 |  |
| 6 | Social Relevance, Environment | 1 |  |

## Impact of Project Works allotment to students and its evaluation

The method of assigning project works and its mechanisms for evaluation process has considerable impact in excellence of student practical skills. The department jury has the practice of awarding prizes for the best projects.

## LIST OF PROJECTS DONE BY CSE STUDENTS WITH ASSESSMENT

Major Project - 2020-21

| $\begin{gathered} \text { Batch } \\ \text { No } \\ \hline \end{gathered}$ | H.T.No | Name of the Student | Title of the project | Name of the Guide | Types of Relevance | Relevance to POs \& PSOs |

## Organizing Workshops

| S NO | Academic Year | Date | Workshop Organized |
| :---: | :---: | :---: | :---: |
| 1 | 2020-2021 | 29/08/2020 | A one day workshop on "Python with ML" for IV B.Tech Task registered students |
|  |  | $\begin{gathered} 14 / 12 / 2020 \\ \text { To } \\ 16 / 12 / 2020 \end{gathered}$ | A three day Webinar on "Cyber Security" was organized for IV B.Tech students. |
|  |  | $\begin{gathered} 07 / 04 / 2021 \\ \text { To } \\ 09 / 04 / 2021 \end{gathered}$ | A two day Webinar on "Reasoning and Aptitude" was organized for III, IV B.Tech Task registered students |
|  |  | 26/04/2021 | A One Day Webinar on "Andriod Application Development" for III B.Tech students |
|  |  | 02/05/2021 | A One Day online workshop on "Internet of Things(IOT)" for II, III, IV B.Tech students |
|  |  | $\begin{gathered} \hline 27-05-2021 \\ \text { To } \\ 29-05-2021 \end{gathered}$ | A Three Day webinar on "Python with Dijango" for IV B.Tech students |
|  |  | $\begin{gathered} 10-06-2021 \\ \text { To } \\ 12-06-2021 \end{gathered}$ | A Three Day "IOT based Industrial Application Development using Audino Uno" for III B.Tech Students. |

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

|  |  | $\begin{gathered} 23 / 08 / 2019 \\ \text { To } \\ 24 / 08 / 2019 \end{gathered}$ | A two days workshop on "Machine Learning" was organized for IV B.Tech students. |
| :---: | :---: | :---: | :---: |
|  |  | $\begin{gathered} 16 / 09 / 2019 \\ \text { To } \\ 20 / 09 / 2019 \end{gathered}$ | A five day workshop on "Oracle Java programming" was organized for IV B.Tech Task registered students. |
|  |  | $\begin{gathered} 17 / 10 / 2019 \\ \text { To } \\ 18 / 10 / 2019 \end{gathered}$ | A two day workshop on "Personal skills" was organized for III B.Tech Task registered students. |
|  |  | $\begin{gathered} 28 / 10 / 2019 \\ \text { To } \\ 30 / 10 / 2019 \end{gathered}$ | A three day workshop on "Database programming with SQL" was organized for IV B.Tech Task registered students. |
|  |  | $\begin{gathered} 30 / 10 / 2019 \\ \text { To } \\ 01 / 11 / 2019 \end{gathered}$ | A three day workshop on "communication/organization skills" was organized for III B.Tech Task registered students. |
| 2 | 2019-2020 | $\begin{gathered} 16 / 12 / 2019 \\ \text { To } \\ 18 / 12 / 2019 \end{gathered}$ | A three day "Gate Orientation Session" was organized for IV B.Tech students. |
| 2 |  | $\begin{gathered} 27 / 01 / 2020 \\ o \\ 31 / 01 / 2020 \end{gathered}$ | A five day workshop on "Oracle Java Fundamentals" was organized for III B.Tech Task registered students. |
|  |  | $\begin{gathered} 13 / 02 / 2020 \\ \text { To } \\ 14 / 02 / 2020 \end{gathered}$ | A two day workshop on "Artificial intelligence" was organized for IV B.Tech students. |
|  |  | $\begin{gathered} 27 / 02 / 2020 \\ \text { To } \\ 29 / 02 / 2020 \end{gathered}$ | A three day workshop on "Internet of Things" was organized for IV B.Tech Task registered students |
|  |  | $\begin{gathered} 14 / 05 / 2020 \\ \text { To } \\ 16 / 05 / 2020 \end{gathered}$ | A three day Online training on "Presentation skills" was organized for III,IV B.Tech Task registered students. |
|  |  | $\begin{gathered} 13 / 08 / 2018 \\ \text { To } \\ 14 / 08 / 2018 \end{gathered}$ | A two day workshop On "Personal Skills Sessions "was organized for III B.Tech Task registered students. |
| 3 | 2018-2019 | $\begin{gathered} 20 / 08 / 2018 \\ \text { To } \\ 21 / 08 / 2018 \end{gathered}$ | A two day workshop On "Personal Skills Sessions "was organized for IV B.Tech Task registered students. |

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

|  |  | $\begin{gathered} 10 / 09 / 2018 \\ \text { To } \\ 11 / 09 / 2018 \end{gathered}$ | A two day work shop on "Artificial Intelligence" was organized for IV B.Tech students. |
| :---: | :---: | :---: | :---: |
|  |  | 25/09/2018 | A one day work shop on "Aptitude \& Reasoning MOOCS" was organized for III B.Tech Task registered students. |
|  |  | $\begin{gathered} 28 / 10 / 2018 \\ \text { To } \\ 30 / 10 / 2018 \end{gathered}$ | A three day work shop on "Database programming with SQL" was organized for III B.Tech Task registered students. |
|  |  | $\begin{gathered} 27 / 12 / 2018 \\ \text { To } \\ 29 / 12 / 2018 \end{gathered}$ | A three day "Gate Orientation Session" was organized for IV B.Tech students. |
|  |  | $\begin{gathered} 13 / 08 / 2017 \\ \text { To } \\ 14 / 08 / 2017 \end{gathered}$ | A two days workshop on " <br> Personal skills" was organized for IV B.Tech students. |
| 4 | 2017-2018 | $\begin{gathered} 14 / 12 / 2017 \\ \text { To } \\ 16 / 12 / 2017 \end{gathered}$ | A Three day "Gate Orientation Session" was organized for IV B.Tech students. |
|  |  | $\begin{gathered} 29 / 12 / 2017 \\ \text { To } \\ 30 / 12 / 2017 \end{gathered}$ | A Two Day workshop on "Web Services" was organized for IV B.Tech students. |

Impact Analysis for Industry Interaction
By organizing above industry related workshops, the knowledge related to the latest trends \& technologies is enriched significantly both to faculty and students as evident that the students could carry out their mini \& major project works mostly on industry need latest topics..

### 2.2.5 Initiatives related to Industry Internship/Summer training(15)

The following initiatives are taken for industry interaction and its relevance to POs.

| S.No | Initiative Taken | PO relavance |
| :---: | :---: | :---: |
| 1 | Organizing Industry Visits/ Training Programs | $\begin{gathered} \mathrm{PO}, \mathrm{PO} 2, \mathrm{PO} 3, \mathrm{PO} 6, \mathrm{PO}, \mathrm{PO} 10, \mathrm{PO} 12 \\ \text { PSO1,PSO2,PSO3 } \end{gathered}$ |
| 2 | Industry Internship/Summer training | $\begin{gathered} \mathrm{PO} 3, \mathrm{PO}, \mathrm{PO}, \mathrm{PO}, \mathrm{PO}, \mathrm{PO}, \mathrm{PO} 11, \mathrm{PO} 12 \\ \text { PSO1,PSO2,PSO3 } \end{gathered}$ |

## Organizing the training programs through Industry persons: MOUs with industries:

The institute has the following MoUs with the industries for conducting Training programs and improving employability skills
> TASK
> Efftronics Systems Pvt. Ltd
> ARETE IT Services Private Limited
> Indian Servers
> VERTULONIX

## Objectives of MOUs

- To explore and identify common avenues of interaction with industry
- To Establish Centre of Excellence by Industry/ Corporate to Provide Real Time exposure on Technologies
- To promote various research activities by the faculty members and students.
- To establish convergence with industrial and research organizations from various fields through MOUs as a form of interaction.

## Objectives of TASK:

- To create environs conducive for growth through faculty development, research pilots and help colleges provide quality education.
- Granting access to modules for enhancing their technology, personal and organization skills.
- Students are trained extensively in latest technology to help companies to find the right candidate

## Objectives of Efftronics:

- Aimed at enabling the interconnection and integration of the physical world and the cyber space.
- To provide knowledge on industry projects and use cases which encompasses of multiple areas such as Computer science, Communications, Electrical, Mechanical and Microelectronics.
- To do interdisciplinary projects related to IOT.
- To develop the mechanisms of network convergence and autonomy.

## Objectives of ARETE IT Services Private Limited:

- Developing and innovating World's Best Class Software.
- Knowledge sharing and team work forms the base of our existence.
- Arete offers superior comprehensive medical coding solutions.

## Objectives of Indian Servers:

- To develop the Android Apps for the users.
- To provide the IT Infrastructure Management.
- Perform the Product Re-engineering.
- Works on Packaged Application Implementation.
- Setup the Business Process Management.

## Objectives of VERTULONIX:

- To expertise in IT services and corporate training.
- Develop in the area of Robotics.
- To give modern solutions with the help of advanced technology.

## Objectives of Vincense Software Solutions Pvt Ltd.:

- Offers Application development and website development services to the clients.
- Provides Project support for clients.
- To organize Workshop on trending technologies by experts in the field

Impact Analysis of Industrial training
The initiative of the department to have MOUs with industries is helped the students to undergo the Internships.

## Student Feedback on the Initiative taken on Industry Institute Interaction:

After Each visit/training the department takes the student feedback about the initiative taken. A sample feedback is enclosed below:

## INFOSYS VISIT FEEDBACK

## ISRO VISIT FEEDBACK

| KODADA INSTITUTE OF TECHNOLOGY AND SCIENCE FOR WOMEN |  |
| :---: | :---: |
| ARANThagiri ROad, KOdada, SURYapet Dt, TS |  |
| KiTS | DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING |

## INDUSTRIAL VISIT FEEDBACK FORM

Name of the student: Harika Vasam.
Year \& Semester: iv-B. Tech - IIscm
Name of the Industry: ISRO, Srihaqikota.
Date of Visit: $01 / 12 \mid 17$.
Please Tick ( $V$ ) the Following:

reasearch.

## EFFTRONICS VISIT FEEDBACK

## INDUSTRIAL VISIT FEEDBACK FORM

[^0]
## INDIAN SERVERS VISIT FEEDBACK

| KODADA INSTITUTE OF TECHNOLOGY AND SCIENCE FOR WOMEN |  |
| :---: | :---: |
| Ananthagiri Road, Kodada, Suryapet Dt, TS |  |
| KiTS | DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING |

## INDUSTRIAL VISIT FEEDBACK FORM

Name of the student: H. Anusha.
Year \& Semester: IV. B.Tech II.Sem
Name of the Industry: Indian Servers, Vijayawada Date of Visit: $07 \mathrm{lo3}_{2120}$
Please Tick (V) the Following:

| Questions | Response of Students |
| :---: | :---: |
| Relevance of the industrial visits w.r.t your curriculum | Excellent ( $\mathcal{S}$ Good ( ) Fair ( Poor ( ) |
| Whether any specific official was assigned for you during the visits | Yes ( ) No ( ) |
| Access to different facilities of interest to you for observation, gather data and get your clarifications cleared | Excellent ( ) Good ( $)$ Fair ( ) Poor ( ) |
| Whether any relevant technical literature is obtained from the Industry | Yes (M) No( ) |
| Do the people in the organization encourage interaction with them or extended support in clarifying your doubts or providing information you have sought for? | Yes (r) No( ) Sometimes( ) |
| Was there any formal class room training organized as part of the training where in the functioning of the organization, technical basics of their operation etc. were arranged? | Yes() No ( ) |
| Was the whole Visit based on a well defined schedule and adherence to the schedule? | Yes (N) No ( ) |
| Overall usefulness of the interaction with the industry | Excellent ( ) Good (M) Fair ( ) Pdor ( ) |
| Willingness to share information \& details by the officials of the organization | Excellent( Good ( ) Fair ( ) <br> Poor ( ) |
| Your recommendation for considering this organization for Visit in future | Strong (Y) can be considered ( ) Not ( ) |
| Comments if any: |  |

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## CRITERION 3

Course Outcomes and Program Outcomes

### 3.1. Establish the correlation between the courses and the Program Outcomes (POs) and Program Specific Outcomes (PSOs) (20)

The following are the defined Program Outcomes (POs) and Program Specific Outcomes for B.Tech in Computer Science \& Engineering.

## PROGRAM OUTCOMES (POs)

Engineering Graduates will be able to:

1. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. Problem analysis: Identify, formulate review research literature and analyze complex engineering problems reaching substantiated conclusions using first principle of mathematics, natural science and engineering science.
3. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. Conduct investigations of complex problems: Use researchbased knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

6. The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. Life-long learning: Recognize the need for, and have the preparation and ability
to engage in independent and life-long learning in the broadest context of technological change.
[^1]
## PSO-1:

Computing Techniques: Apply the knowledge about principle of programming languages, computer algorithms, databases, system software and computer network for the interconnection.

## PSO-2:

Computer product and Application Development: Interpret and analyze the problem, formulate an efficient hardware and software solution for the real world. Socio - industry related problems and needs using computing methodologies and latest technologies.

## PSO-3:

Successful Career and Entrepreneurship Perspectives: Fulfilling desire by attaining employment, excel in competitive examinations, higher studies, research and initiate startups.
3.1.1. Course Outcomes (COs) (SAR should include course outcomes of one course from each semester of study,however,should be prepared for all courses and made available as evidence, if asked)(05)
The following list illustrates the Course Outcomes defined for one Course in every year and semester of study for the Academic Year 2017-18

## Course Name: C212 - Data Structures through C++

Year of Study: 2017-2018
Regulation:R16
CO\# The student should be able to
C212.1
Learn C++ programming structure and able to implement basic programs using object oriented programming concepts in $\mathrm{C}++$.
C212.2 algorithms.
C212.3 Understand and Implement the concepts of stack, queue and their applications using arrays and linked list in C++.
C212.4 Apply various operations on trees and graphs using array and linked representations in $\mathrm{C}++$.
C212.5 Compare and contrast various searching and sorting algorithms through C++ programming.

C212.6 Analyze the need of balanced trees and construct different operations on balanced trees in $\mathrm{C}++$.

| Course |
| :--- | :--- |
| Year of Stude:C222 - Database Management Systems. |
| Regulation:R16 |$|$

Course Name: C314-COMPILER DESIGN. Year of Study: 2017-2018

| CO\# | The student should be able to <br> C314.1Understand the design of a compiler and the <br> phases of program translation from source code to <br> executable code. |
| :--- | :--- |
| C314.2 | Analyze different parsing techniques such as <br> recursive decent parser and LR parser used in <br> parser generator. |
| C314.3 | Apsly the formal attributes grammars for specifying <br> the syntax and semantics of programming <br> languages. |
| C314.4 | Examine the code optimization and data flow <br> analysis. |
| C314.5 | Apply and analyze code generation algorithms and <br> generate object code. |
| C314.6 | Design a compiler for an abstract language. |

| Course Name: C321 - Distributed Systems. <br> Year of Study:2017-2018 |  |
| :--- | :--- |
| CO\# | The student should be able to |
| C321.1 | Examine the distributed system models and able to choose <br> appropriate model for a given problem. |
| C321.2 | Develop a case study for sun network file system, Andrew <br> file system and global name services. |
| C321.3 | Select the concepts of locking, synchronization and <br> concurrency, scheduling and replication in distributed <br> environment. |
| C321.4 | Examine the design and implementation issues in <br> distributed shared memory. |
| C321.5 | Judge the general properties of networked communication <br> necessary for distributed systems programming in clusters <br> over the internet. |
| C321.6 | Employ and create common paradigms for easing the task <br> of distributed systems and able to clearly elucidate their <br> benefits, drawbacks and limitations. |

| Course Name:C412 - Design patterns <br> Year of Study:2017-2018 |  |
| :--- | :--- |
| CO\# | The student should be able to $\quad$ Regulation:R13 |
| C412.1 | Select and apply design patterns in Smalltalk MVC. <br> C412.2 <br> Develop a case study on document editor by considering <br> Key elements like structure, format, look and feel etc. <br> C412.3Categorize the different types of patterns(Creational <br> ,structural and behavioral) |
| C412.4 | Examine the appropriate design patterns to solve object <br> oriented design problems. |
| C412.5 | Analyze the brief history and expectations from the design <br> patterns. |
| C412.6 | Summarize the advantages and disadvantages of using <br> design pattern variants. |

| Course Name:C422 - Semantic Web and Social Networks <br> Year of Study:2017-2018 |  |
| :--- | :--- |
| RO\# | The student should be able to |
| C422.1 | Analyze the knowledge Representation for the Semantic <br> web. |
| C422.2 | Implement the ontology. |
| C422.3 | Develop the build a blocks of social networks. |
| C422.4 | Demonstrate and construct the Semantic web applications, <br> services and technologies. |
| C422.5 | Apply the social network analysis and semantic web. |
| C422.6 | Examine the Semantic Web Applications, Services and <br> Technology |

The following list illustrates the Course Outcomes defined for one Course in every year and semester of study for the Academic Year 2018-19

| Course Name:C213 - Mathematical Foundations of Computer <br> Science |  |
| :--- | :--- |
| Year of Study:2018-2019 |  |
| CO\# | The student should be able to |
| C213.1 | Apply mathematical logic to solve given problems. <br> C213.2Formulate the problems on sets, relations, functions and <br> algebraic structures. |
| C213.3 | Implement logical notation to outline about fundamental <br> mathematical concepts. |
| C213.4 | Demonstrate the practical applications and solve the basic <br> counting principles of permutations, combinations <br> inclusion/exclusion principle and the pigeonhole. |
| C213.5 | Analyze and solve the recurrence relations. <br> C213.6Model and solve the real world problems using graphs and <br> trees. |

Course Name: C223-Operating systems.
Year of Study: 2018-2019
Regulation:R16
CO\# The student should be able to
C223.1 Analyze the objectives, functions and evolutions of operating systems.
C223.2 study the operations performed by os as a resource manager.
C223.3 Differentiate the scheduling policies of os.
C223.4 Examine different memory management techniques.
C223.5 Analyze process concurrency and synchronization.
C223.6 Implement the concepts of input/output, storage and file management.

| Year o | Name:C311 - Design and Analysis of Algorithms. Study: 2018-2019 Regulation:R16 |
| :---: | :---: |
| CO\# | The student should be able to |
| C311.1 | Analyze and evaluate the time and space algorithms using asymptotic analysis. |
| C311.2 | Apply divide and conquer to binary search, merge sort ,stresses matrix multiplication and analyze their time complexities. |
| C311.3 | Formulate the greedy method and analyze their time complexities. |
| C311.4 | Implement dynamic programming, and analyze their time complexities. |
| C311.5 | Construct back tracking and branch and bound, compare their performance and analyze their time complexities. |
| 1.6 | Distinguish P, NP ,NP-complete ,NP-hard and analyze hard problems , able to design the algorithms for new problems. |

| Course Name: C322 -Web Technologies. <br> Year of Study: 2018-2019 |  |
| :--- | :--- |
| CO\# | The student should be able to |
| C322.1 | Gain knowledge of PHP languages for server side scripting. |
| C322.2 | Apply the fundamental concepts of XML and learn the XML <br> parsers to load the XML document in the user application. |
| C322.3 | Implement the server side programming using Java |
| Servlets. |  |

Course Name:C411 - Linux Programming Year of Study: 2018-2019

## Regulation:R15

CO\# The student should be able to
C411.1
Apply the basics of Linux and various scripts to automate systems task and repetitive user tasks.
C411.2
Analyze the concepts of files and directories and use it for developing applications.

C411.3
Demonstrate the concept of processes and signals that can be used to perform real time tasks.
Differentiate the FIFO, Message queues and semaphore
C411.4 programs for providing communication among process running on same and different systems.
Create the shared memory and socket network programs
C411.5 for providing communication among process running on different systems.

C411.6
Develop real world application that runs across various platforms over the internet.

| Course <br> Year of Study:2018-2019 | Name:C422 - Semantic Web and |
| :--- | :--- |
| CO\# | The student should be able to |
| Regulation:R15 |  |$|$| Analyze the knowledge Representation for the Semantic |
| :--- |
| C422.1 |
| web. |

The following list illustrates the Course Outcomes defined for one Course in every year and semester of study for the Academic Year 2019-20

## Course Name:C212 - Data Structures

Year of Study: 2019-2020

## Regulation:R18

CO\# The student should be able to
C212.1
Apply the notations used to analyze a performance of algorithms.
C212.2 Implement the concepts of stack, queue and their applications using arrays and linked lists.
Construct trees and graphs using arrays and linked lists,
C212.3 apply tree and graph traversal methods in real time applications

C212.4 Compare and contrast various searching and sorting algorithms through activity based learning.
C212.5 Appreciate the need of balanced trees and analyze different operations in various balanced trees.
C212.6 Select appropriate data structures for a given problem
Course Name:C225 - Java Programming
Year of Study: 2019-2020
Regulation:R18
CO\# The student should be able to
C225.1
List and use object oriented programming concepts for problem solving in Java
C225.2 Develop Programs for various applications using oops concepts and exceptional handling in Java.

C225.3
Learn how to reduce the wastage of CPU time with multi threading concepts in Java.

C225.4 Construct JDBC to provide a program level Interface for communicating with database using Java programming.
C225.5 Create GUI based application using Java programming. Demonstrate the event handling programs and identify the
C225.6 differences between applets and applications with examples.

Course Name: C312 - Data Communication and Computer Networks.
Year of Study: 2019-2020
Regulation:R16
CO\# The student should be able to
Explore the basics of data communications and computer
C312.1 networks and layered approach used for simulating the networking environment.
C312.2 Examine various types of networks.
C312.3
Demonstrate the TCP/IO and OSI models with merits and demerits.
C312.4 Explore the various layers of OSI Model.
C312.5 Differentiate TCP and UDP models.
C312.6 Analyze various types of networks.

Course Name: C322 -Web Technologies.
Year of Study: 2019-2020

## Regulation:R16

CO\# The student should be able to
C322.1 Gain knowledge of PHP languages for server side scripting.
C322.2 Apply the fundamental concepts of XML and learn the XML parsers to load the XML document in the user application.
C322.3 Implement the server side programming using Java Servlets.

C322.4
Develop server side programming and able to create dynamic web applications using JSP.
C322.5 Develop the dynamic web applications (pages) using Java script Client side programming.

C322.6
Establish the database connections using PHP ,Servlets and JSP.

Course Name:C422 - Modern Software Engineering
Year of Study:2019-2020 Regulation:R16

## CO\# The student should be able to

C422.1
Develop the project with extreme programming life cycle using agile methods.
C422.2 Communicate with all the stakeholders iteratively to maintain coding standards.
C422.3 Build, test, version control, continuous integration and document every release
C422.4 Plan, schedule and estimate a project by considering the risk management.
C422.5 Develop the project incrementally by testing the performance at each step.
C422.6 Apply the knowledge, techniques, and skills in the development of a software product.

The following list illustrates the Course Outcomes defined for one Course in every year and semester of study for the Academic Year 2020-21

| Course Name: C212 - Data Structures <br> Year of Study:2020-2021 |  |  |
| :--- | :--- | :--- |
| CO\# | The student should be able to | Regulation:R18 |
| C212.1 | Apply the notations used to analyze a performance of <br> algorithms. |  |
| C212.2 | Implement the concepts of stack , queue and their <br> applications using arrays and linked lists. |  |
| C212.3 | Construct trees and graphs using arrays and linked lists , <br> apply tree and graph traversal methods in real time <br> applications |  |
| C212.4 | Compare and contrast various searching and sorting <br> algorithms through activity based learning. |  |
| C212.5 | Appreciate the need of balanced trees and analyze different <br> operations in various balanced trees. |  |
| C212.6 | Select appropriate data structures for a given problem |  |

Course Name: C225 - Java Programming
Year of Study: 2020-2021
Regulation: R18
CO\# The student should be able to
C225.1 Apply the notations used to analyze a performance of algorithms.

C225.2
Implement the concepts of stack, queue and their applications using arrays and linked lists.
Construct trees and graphs using arrays and linked lists,
C225.3 apply tree and graph traversal methods in real time applications

C225.4 Compare and contrast various searching and sorting algorithms through activity based learning.

C225.5
Appreciate the need of balanced trees and analyze different operations in various balanced trees.
C225.6 Select appropriate data structures for a given problem

| Course Name: C312 - Software Engineering <br> Year of Study: 2020-2021 |  |
| :--- | :--- |
| CO\# Regulation:R18 | The student should be able to |
| C312.1 | Identify the requirements, analyze and document them for <br> the development of application by effectively <br> communicating with the customer. |
| C312.2 | Design, model, develop and maintain efficient and cost- <br> effective software solution to various problems faced by the <br> society. |
| C312.3 | Analyze the software requirements and design the SRS <br> document. |
| C312.4 | Differentiate different software architectural styles. |

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

C312.5 Apply software testing approaches such as unit testing and integration testing.

C312.6 Implement quality control and how to ensure good quality software.

Course Name: C321 - Machine Learning
Year of Study: 2020-2021
Regulation:R18
CO\# The student should be able to
C321.1
Differentiate various learning approaches, and to interpret the concepts of supervised learning.
C321.2 Compare the different dimensionality reduction techniques.
C321.3 Apply theoretical foundations of decision trees to identify best split and Bayesian classifier to label data points.
Illustrate the working of classifier models like SVM, Neural
C321.4 Networks and identify classifier model for typical machine learning applications.

C321.5
Identify the state sequence and evaluate a sequence emission probability from a given HMM.

C321.6 Illustrate and apply clustering algorithms and identify its applicability in real life problems.

Course Name: C413 - PE-II Python Programming
Year of Study: 2020-2021 Regulation:R16
CO\# The student should be able to
C413.1 Understand python syntax and semantics and be fluent in the use of python flow control and functions.
Compose, run and manipulate python programs using core
C413.2 data structures like lists, dictionaries and use regular expressions.

C413.3 and applying exception handling to gain efficient testing
Demonstrate proficiency in handling strings, file systems android debugging skills in Python.
C413.4 Interpret the concepts of object oriented programming in Python.
C413.5 Implement exemplary applications related to network programming, web Services and database in python.
C413.6 Implement GUI programming using python.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

| Course Name: C422-Modern Software Engineering |
| :--- |
| Year of Study: 2020-2021 |
| Regulation:R16 |

| CO\# | The student should be able to |  |
| :--- | :--- | :--- | :--- |
| C422.1 | Develop the project with extreme programming life cycle <br> using agile methods. |  |
| C422.2 | Communicate with all the stakeholders iteratively to <br> maintain coding standards. |  |
| C422.3 | Build, test, version control, continuous integration and <br> document every release |  |
| C422.4 | Plan, schedule and estimate a project by considering the <br> risk management. |  |
| C422.5 | levelop the project incrementally by testing the <br> performance at each step. |  |
| C422.6 | Apply the knowledge, techniques, and skills in the <br> development of a software product. |  |

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

3.1.2 CO-PO matrices of courses selected in 3.1.1(Six matrices to be mentioned; one per semester from 3rd to 8th semester) (5)
Note: Enter correlation level as1, 2 or 3 as defined below:
1 : Slight (Low)
2 : Moderate(Medium)
3 : Substantial(High)
: If no correlation

The following tables reflect the CO-PO mapping for the courses whose mapping was shown above for Academic Year 2017-18

| Course | Program Outcomes (PO's) |  |  |  |  |  |  |  |  |  |  |  | PSO |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 3.2. Attainment of course outcomes (50M)

### 3.2.1. Describe the assessment process used to gather the data upon which the evolution of course outcome is based (10M)

## REGULATION: R13 \& R15

Course assessment is done by considering direct assessment. The data is collected from the student performance in both internal and external assessments.
The following assessment process is considered by the Department Advisory Board (DAB)
Which are used for the evaluation of course outcomes.
i. Internal examination marks
ii. External examination marks
iii. Practical courses
iv. Industry oriented mini project
v. Seminar
vi. Comprehensive viva - voce
vii. Project work
i. Measuring the course attainment through Internal examination marks (25 marks). There are three components for evaluating the course outcomes why internal examination
a)Assignments : Work is given to students to access whether the learning outcomes are met by the students. It is evaluated twice in a semester. This component includes (5 Marks) for each mid examination.
b) Quiz: Conducted twice in a semester to evaluate students learning outcomes. This Component includes (10 Marks) for each mid exam.
c) Descriptive exam :Conducted twice in a semester to evaluate students analytical learning outcomes. This Component includes (10 Marks) for each mid exam.
ii. Measuring the course attainment through External examination marks ( 75 marks / 10 GPA) University conducts exams at the end of the course. It is valuated for 75 marks for earlier batches. According to new guidelines students are evaluated based on grade Point of 10 scale.
iii. For practical courses there shall be a continuous evaluation during a semester for 25 sessional marks and 75 end semester examination marks. Out of the 25 marks for internal evaluation, day- to- day work in the laboratory shall be evaluated for 10 marks conducted by the

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

laboratory teacher concerned. The end semester examination shall be conducted with an external and the laboratory teacher.
iv. There shall be an industry oriented mini project, in collaboration with an industry and their specialization, to be taken up during the vacation after III year II semester examination. However, the mini project and its report shall be evaluated along with project work in IV year II semester. The industry oriented mini project should be submitted in a report form and presented before the committee. It shall be evaluated to 50 marks. The committee consists of an external examiner, Head of the Department, supervisor of the mini project in a senior faculty member of the department, there should be no internal marks for industry oriented mini project.
v. There shall be a seminar presentation in IV year II semester. For the seminar, the student shell collect the information on a specialized topic and prepare a technical report for showing his understand of the topic, and submit it to the department. It shall be evaluated by the departmental committee consisting of head of the department, seminar supervisor and senior faculty member. The seminar report shall be evaluated for 50 marks. There shall be no external examination for the seminar.
vi. There shall be a comprehensive viva-voce in IV year II semester. The comprehensive Viva-voce will be conducted by a committee consisting of head of the department enter to senior faculty members of the department. The comprehensive viva- voce is intended to assess the student's understanding of the subjects he studied during the B.Tech. Course of study. The comprehensive Viva-Voce is evaluated for 100 marks by the committee. There are no internal marks for the comprehensive Viva-Voce.
vii. Out of a total of 200 marks for the project work, 50 marks shall be allotted for internal evaluation marks for the end semester examination ( Viva-Voce). The end semester examination of the project work shall be conducted by the same committee as appointed for the industry - oriented mini - project. In addition, the project supervisor should also be included in the committee. The topics for industry oriented mini project, seminars and project work shall be different from one another. The evaluation of project work should be made at the end of the IV year. The internal evaluation shall be on the basics of to seminars given by each student on the topic of his project.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 3.3. Attainment of Program Outcomes and Program Specific Outcomes (50)

#### Abstract

3.3.1. Describe assessment tools and processes used for measuring the attainment of each of the Program Outcomes and program specific outcomes (10)

## Assessment Process

The Assessment process for POs and PSOs involve both direct and indirect methods.( The attainment levels by direct( student performance) and indirect( surveys) are to be presented true program level course - PO\& PSO matrix as indicated).
a)A listing assessment tools and processes used to gather the data upon which is the evolution of each the program outcome is based.
b) The frequency with which this assessment processes are carried out.

## A. Listing and description of the tools and process used to gather data used for evaluation of each program outcome.

## Direct assessment :

- University Theory and Lab Examinations :- semester end examination is a metric for assessing whether all the POs are attained or not. Examination is more focused on attainment of course outcomes and program outcomes using a descriptive examination.
- Internal Examinations:- this type of performance assessment is carried out during the examination sessions which are held twice a semester. Each and every session is focused in attending the course outcomes. Descriptive and objective test conducted for two units.
- Assignments:- each and every student is assigned with course related tasks during every Course work once or twice and assessment will be done based on their performance. Grades are assigned depending on their innovation in solving the problem.

Process for using direct assessment tools used for measuring the attainment of PO and PSO

PO attainment level calculation=( 1/3)* course attainment level* correlation level(CL) of PO.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

PSO attainment level calculation=(1/3)* course attainment level* correlation level(CL) of PSO.

## Indirect Method

In indirect method, the attainment of POs/PSOs is calculated using:

1. Student exit survey(GES)
2.Parents feedback
2. Alumni feedback
3. Employer feedback
4. Course end survey

## 1.Student Exit Survey

After Completion of the Program, students are asked to give feedback on the following parameters using a 3 - Point Scale : 3 - Excellent, 2-Good, 1 - Satisfactory, And 0 - Poor.

| S.No. | Parameter | Rating |
| :--- | :--- | :--- |
| $\mathbf{1}$ | Imparting Fundamental <br> Science and <br> and <br> Engineering$\quad$Computer <br> Basics. |  |
| $\mathbf{2}$ | Ability to analyse a given problem. |  |
| $\mathbf{3}$ | Ability to design and develop a solution to the given <br> problems. |  |
| $\mathbf{4}$ | Ability to conduct Investigations |  |
| $\mathbf{5}$ | Ability to use modern software tools <br> Ability to use concepts of Computer Science and <br> Engineering in providing Engineering Solutions to the |  |
| $\mathbf{6}$ | Understanding the role of CSE in Environmental <br> Applications. |  |
| $\mathbf{8}$ | Able to impart the Ethics |  |
| $\mathbf{9}$ | Ability of working in team and self learning skills. |  |
| $\mathbf{1 0}$ | Building effective Communication Skills |  |
| $\mathbf{1 1}$ | Ability to manage a given project |  |
| $\mathbf{1 2}$ | Attitude towards life-long learning. |  |

Date:
Signature of the student

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Now these parameters are mapped to POs and PSOs as shown below:

| POs | PO | $\begin{gathered} \mathrm{PO} \\ 2 \end{gathered}$ | $\begin{gathered} \mathrm{PO} \\ 3 \end{gathered}$ | $\begin{gathered} \mathrm{PO} \\ 4 \end{gathered}$ | $\begin{gathered} \text { PO } \\ 5 \end{gathered}$ | $\begin{gathered} \text { PO } \\ 6 \end{gathered}$ | $\begin{gathered} \hline \mathrm{PO} \\ 7 \end{gathered}$ | $\begin{gathered} \mathrm{PO} \\ 8 \end{gathered}$ | $\begin{gathered} \hline \mathrm{PO} \\ 9 \end{gathered}$ | $\begin{gathered} \text { PO1 } \\ 0 \end{gathered}$ | $\mathrm{PO} 1$ | $\begin{gathered} \hline \text { PO1 } \\ 2 \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Paramete rs | i | ii | iii | iv | v | vi | vii | viii | ix | X | xi | xii |

| PSOs | PSO1 | PSO2 | PSO3 |
| :--- | :--- | :--- | :--- |
| Paramete <br> rs | $\mathrm{i}, \mathrm{ii}, \mathrm{vi}, \mathrm{xi}, \mathrm{x}$ <br> ii | $\mathrm{i}, \mathrm{ii}, \mathrm{iii}, \mathrm{iv}, \mathrm{v}, \mathrm{vi}, \mathrm{vii}, \mathrm{viii}, \mathrm{ix}, \mathrm{x}, \mathrm{xi}$ <br> ,xii | $\mathrm{i}, \mathrm{ii}, \mathrm{iii}, \mathrm{iv}, \mathrm{v}, \mathrm{vi}, \mathrm{vii}, \mathrm{viii}, \mathrm{ix}, \mathrm{x}, \mathrm{xi}$ <br> ,xii |

Finally POs and PSOs attainment is calculated using parameter -POs mapping table and scale downed to 3.

## 2.Parents feedback

Once in a semester, the parents are asked to give feedback on the following parameters on a 3 - point scale. 3 - Excellent, 2 - Good, 1 Satisfactory and 0 - Poor.

P1: Self -Learning
P2: Communication Skills
P3: Confidence Levels
P4: Time Management
P5: Personality Development
P6: Team Work
P7: Social Responsibility
P8: Problem Solving Ability
P9: Ethical Behavior.
Now these parameters are mapped to PO s and PSOs as shown below:

| POs | PO1 | PO2 | PO3 | PO4 | PO5 | PO6 | PO7 | PO8 | PO9 | PO10 | PO11 | PO12 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Parameters | P8 | P8 | P8 | P8 | P8 | P7 | P1 | P3, <br> P9 | P4, <br> P6 | P2,P3, <br> P5 | P7 | P1 |

| PSOs | PSO1 | PSO2 | PSO3 |
| :--- | :--- | :--- | :--- |
| Parameters | P3,P8 | P1,P2,P3,P4,P5,P6,P7,P8 | P2,P3,P4,P5,P6,P8,P9 |

Finally POs and PSOs attainment is calculated using parameter -POs mapping table and scale downed to 3.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## 3.Alumni feedback.

Alumni students are asked to give feedback during their visit to campus on the following parameters on a 3- point scale.3- excellent, 2- good,1satisfactory and 0-poor.

P1: Preparedness for the job.
P2: Level of comfort to work in teams/ individually
P3: Usefulness of the add- on courses such as WISE , ATL, IoT, workshops training, seminars etc,. Provided during the program.

P4: Application of the knowledge gained during the program to solve the real world problems.

P5: Ability for life- long learning and self learning.
P6: Level of convenience in the expression of ideas.
P7: Leadership skills.
Now these parameters are mapped to POs and PSOs as shown below:

| POs | PO1 | PO2 | PO3 | PO4 | PO5 | PO6 | PO7 | PO8 | PO9 | PO11 | PO11 | PO12 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Parameters | P1 | P1 | P1, | P1, | P1, | P1 | P1, | P1 | P2, | P1, | P2,P4, | P1,P3, |
|  |  |  | P3 | P3 | P3 | P2 | P4 | P1 | P7 | P6 | P7 | P5 |

| PSOs | PSO1 | PSO2 | PSO3 |
| :---: | :---: | :---: | :---: |
| Parameters | P1,P4,P8 | $\mathrm{P} 1, \mathrm{P} 2, \mathrm{P} 3, \mathrm{P} 4, \mathrm{P} 5, \mathrm{P} 6$ | $\mathrm{P} 1, \mathrm{P} 2, \mathrm{P} 3, \mathrm{P} 4, \mathrm{P} 5, \mathrm{P} 6$ |

Finally POs and PSOs attainment is calculated using parameter -POs mapping table and scale downed to 3.

## 4.EMPLOYER FEEDBACK

Date:
College name: Kodada institute of technology and Science for Women Department: Computer Science \& Engineering.

Dear sir/ madam,
We trust that the students selected from our campus are performing well and you are satisfied with the quality of students from our college. In order to understand and improve the student performance we would like to have your frank feedback about our student performance and areas of improvement. Please take few minutes of your valuable time to give comments on the following. Your feedback will give us the right inputs and will help us to serve you better.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

You are requested to rate them in the space provided against each question as per following rubrics.

Rating: EXCELLENT (3), GOOD (2), SATISFACTORY (1), POOR(0), ( please strike- out irrelevant one)

| S.No. | Questionnaire | Rating |
| :---: | :--- | :--- |
| 1 | Fundamentals in their field of study |  |
| 2 | Analytical skills |  |
| 3 | Design and developmental knowledge |  |
| 4 | Solving Complex problems |  |
| 5 | Knowledge of software tools |  |
| 6 | Engineering thinking skills |  |
| 7 | Environmental awareness |  |
| 8 | Discipline and professionalism |  |
| 9 | Ability to work as a team and leadership |  |
| 10 | Communication and documentation skills |  |
| 11 | Project management abilities |  |
| 12 | Attitude towards learning new things |  |

Overall, KITS (W) computer Science and Engineering YES/NO graduates are good candidates for employment with this company.
I would recommend hiring other computer Science and YES/NO Engineering graduates from KITS(W)
Any company recruits at KITS(W) campus (If no, please tell us why)
What additional preparation would you like future KITS(W) Computer
Science and Engineering graduates to possess ?
Please be as specific as possible
Date
Place Signature with seal

Now these parameters are mapped to POs and PSOs as shown below:

| POs | PO1 | PO2 | PO3 | PO4 | PO5 | PO6 | PO7 | PO8 | PO9 | PO10 | PO11 | PO12 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Parameters | P1 | P2 | P3 | P4 | P5 | P6 | P7 | P8 | P9 | P10 | P11 | P12 |

| PSOs | PSO 1 | PSO | PSO |
| :---: | :---: | :---: | :---: |
| Parame | $\mathrm{P} 1, \mathrm{P} 2, \mathrm{P} 6, \mathrm{P} 11, \mathrm{P}$ | $\mathrm{P} 1, \mathrm{P} 2, \mathrm{P} 3, \mathrm{P} 4, \mathrm{P} 5, \mathrm{P} 6, \mathrm{P} 7$ | $\mathrm{P} 1, \mathrm{P} 2, \mathrm{P} 3, \mathrm{P} 4, \mathrm{P} 5, \mathrm{P} 6$, |
| ters | 12 | ,P8,P9, P10,P11,12 | $\mathrm{P} 7, \mathrm{P} 8, \mathrm{P9}$, |
|  |  | $\mathrm{P} 10, \mathrm{P} 11,12$ |  |

Finally POs and PSOs attainment is calculated using parameter -POs mapping table and scale downed to 3 .

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## 5.Course end survey:

After Completion of the course, students are asked to give feedback on the course using a 3 - Point Scale :
3 - Excellent, 2-Good, 1 - Satisfactory, And 0 - Poor.

| Success Index [ SI = Y/X] | 0.83 | 0.89 | 0.97 | 0.79 |

Table B.4.2.2
Average SI[ ( SI1 + SI2 + SI3) / 3 ]: 0.89
Assessment [15 * Average SI] : 13.45
Note : If $100 \%$ students clear without any backlog then also total marks scored will be 40 as both $4.2 .1 \& 4.2 .2$ will be applicable simultaneously.

### 4.3 Academic Performance in Third Year(15)

| Academic Performance | CAYm2 (2017-18) | CAYm3 (2016-17) | LYG (2015-16) | LYGm1 (2014-15) |
| :--- | :---: | :---: | :---: | :---: |
| Mean of CGPA or mean percentage of <br> all successful students $(X)$ | 5.60 | 5.80 | 5.60 | 5.60 |
| Total number of successful students(Y) | 44 | 53 | 51 | 35 |
| Totalnumber of students appeared in <br> the examination(Z) | 44 | 53 | 51 | 35 |
| API $\left[X^{*}(Y / Z)\right]:$ | 5.60 | 5.80 | 5.60 | 5.60 |

## Table B.4.3

Average API [ (AP1 + AP2 + AP3)/3]:5.66
Assessment [1.5 * AverageAPI] : 8.50

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 4.4 Academic Performance in Second Year(15)

| Academic Performance | CAYm1 (2018-19) | CAYm2 (2017-18) | CAYm3 (2016-17) | LYG (2015-16) |
| :--- | :---: | :---: | :---: | :---: |
| Mean of CGPA or mean percentage of <br> all successful students(X) | 5.90 | 5.40 | 5.80 | 5.80 |
| Total number of successful students(Y) | 62 | 44 | 53 | 51 |
| Totalnumber of students appeared in <br> the examination(Z) | 62 | 44 | 53 | 51 |
| API $\left[X^{*}(Y / Z)\right]:$ | 5.90 | 5.40 | 5.80 | 5.80 |

Table B.4.4
Average API [ (AP1 + AP2 + AP3)/3 ]: 5.70
Assessment [ 1.5 * AverageAPI ] : 8.55
4.5 Placement, Higher Studies and Entrepreneurship(40)

| Item | $\mathbf{( 2 0 1 6 - 1 7 )}$ | LYG (2015- <br> $\mathbf{1 6})$ | LYGm1 <br> $(\mathbf{2 0 1 4 - 1 5 )}$ | LYGm2 <br> $(\mathbf{2 0 1 3 - 1 4 )}$ |
| :--- | :---: | :---: | :---: | :---: |
| Total No of Final Year Students(N) | 44 | 51 | 35 | 59 |
| No of students placed in the companies or government sector(X) | 25 | 23 | 22 | 20 |
| No of students admitted to higher studies with valid qualifying scores <br> (GATE or equivalent State or National Level tests, GRE, GMAT etc.) (Y) | 6 | 1 | 4 | 3 |
| No of students turned entrepreneur in engineering/technology $(Z)$ | 0 | 0 | 0 | 0 |
| $x+y+z=$ | 31 | 24 | 26 | 23 |
| Placement Index $[(X+Y+Z) / N]:$ | 0.70 | 0.47 | 0.74 | 0.39 |

Table B.4.5
Average Placement [ (P1 + P2 + P3)/3]:0.63
Assessment [ 40 * Average Placement] : 25.46

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## 4.5a. Provide the placement data in the below mentioned format with the name of the program and the assessment year:

Program Name: Computer Science \& Engineering
Assessment Year Name : 2017-18

### 4.6 Professional Activities(20)

### 4.6.1 Professional socities/ chapters and organizing engineering events(5)

The professional chapter of Computer Society of India, Hyderabad was

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

established in Kodada Institute of Technology and Science for Women, kodad, Telangana.

The details are as follows :

| S.NO | Name of the College | Name of Chapter | Details <br> (Date/Month/Year) |
| :---: | :--- | :--- | :---: |
| 1 | Kodada Institute of <br> Technology and | Computer Society <br> Science for India, <br> Women, kodad, <br> Telangana. | Hyderabad |$\quad 31-07-2020$

## Computer Society of India

is pleased to certify that

is an

## Educational Institution Member

of

## Computer Society of India

(Validity of this certificate is subject to renewal of CSI membership and other norms of the Society)

Faculty Membership Details:

| SI.No | Name of the Faculty | Designation | CSI Number/Year |
| :---: | :---: | :---: | :---: |
| 1 | CH.NAGARJUN RAO | PROFESSOR | F8003243 |

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

| 2 | CH.SURESH KUMAR | ASSISTANT.PROFESSOR | F8003244 |
| :--- | :--- | :--- | :--- |
| 3 | K.VAMSHI KRISHNA | ASSISTANT.PROFESSOR | F8003245 |

The professional chapter of Indian Society for Technical Education, India was established in Kodada Institute of Technology and Science for Women, kodad, Telangana.
The details are as follows :

| S.NO | Name of the College | Name of Chapter | Details <br> (Date/Month/Year) |
| :---: | :--- | :--- | :---: |
| 1 | Kodada Institute of <br> Technology and <br> Science for <br> Women, kodad, <br> Telangana. | Indian Society <br> for | Technical <br> Education |

Table B.5-3

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Note: Please provide details for the faculty of the department, cumulative information for all the shifts for all academic years starting from current year in above format in Annexure - II.

### 5.1 Student-Faculty Ratio (SFR)(20)

(To be calculated at Department Level)
No. of UG Programs in the Department (n) : 1
No. of PG Programs in the Department (m): 1
No. of Students in UG 2nd Year= u1
No. of Students in UG 3rd Year= u2
No. of Students in UG 4th Year= u3
No. of Students in PG 1st Year= p1
No. of Students in PG 2nd Year= p2
No. of Students $=$ Sanctioned Intake + Actual admitted lateral entry students
(The above data to be provided considering all the UG and PG programs of the department)

S=Number of Students in the Department=UG1+UG2+...+UGn+PG1+ PGn

F = Total Number of Faculty Members in the Department (excluding first year faculty)

Student Teacher Ratio (STR) $=$ S / F

| Year | CAY | CAYm1 | CAYm2 |
| :---: | :--- | :--- | :--- |
| u1.1 | $60+3$ | $60+4$ | $60+2$ |
| u1.2 | $60+4$ | $60+2$ | $60+3$ |
| u1.3 | $60+2$ | $60+3$ | $60+1$ |

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

| UG1 | $\begin{aligned} & \mathrm{u} 1.1+\mathrm{u} 1.2+\mathrm{u} 1.3 \\ & =189 \end{aligned}$ | $\begin{gathered} u 1.1+\mathrm{u} 1.2+\mathrm{u} 1.3 \\ =189 \end{gathered}$ | $\begin{aligned} & u 1.1+u 1.2+u 1 . \\ & 3=189 \end{aligned}$ |
| :---: | :---: | :---: | :---: |
| p1.1 | 36 | 36 | 36 |
| p1.2 | 36 | 36 | 36 |
| PG1 | $\mathrm{p} 1.1+\mathrm{p} 1.2=72$ | $\mathrm{p} 1.1+\mathrm{p} 1.2=72$ | $\frac{\mathrm{p} 1.1+\mathrm{p} 1.2}{2}=7$ |
| Total No. of Students in the Department (S) | $\begin{gathered} \text { UG1 }+ \text { PG1 } \\ =261 \end{gathered}$ | $\mathrm{UG} 1+\mathrm{PG} 1=261$ | $\begin{gathered} \text { UG1+ } \\ \text { PG1 }=258 \end{gathered}$ |
| No. of Faculty in the Department (F) | $\mathrm{F} 1=21$ | $F 2=21$ | $F 3=20$ |
| Student Faculty Ratio (SFR) | $\begin{gathered} \mathrm{SFR} 1=\mathrm{S} 1 / \mathrm{F} 1= \\ 12.43 \end{gathered}$ | $\begin{aligned} & \mathrm{SFR} 2=\mathrm{S} 2 / \mathrm{F} 2= \\ & 12.43 \end{aligned}$ | $\begin{aligned} & \mathrm{SFR} 3=\mathrm{S} 3 / \mathrm{F} 3= \\ & 12.90 \end{aligned}$ |
| Average SFR | SFR $=(\mathrm{SFR} 1+\mathrm{SFR} 2$ | +SFR3)/3 $/ 2.59$ |  |

Table B.5.1
STUDENT FACULTY RATIO MARKS : 20

Note: Marks to be given proportionally from a maximum of 20 to a minimum of 10 for average SFR between $15: 1$ to $25: 1$, and zero for average SFR higher than 25:1. Marks distribution is given as below:

$$
\begin{array}{lll}
<=15 & - & 20 \text { Marks } \\
<=17 & - & 18 \text { Marks } \\
<=19 & - & 16 \text { Marks } \\
<=21 & - & 14 \text { Marks } \\
<=23 & - & 12 \text { Marks } \\
<=25 & - & 10 \text { Marks } \\
>25.0 & - & 0 \text { Marks }
\end{array}
$$

Minimum 75\% should be Regular/ full time faculty and the remaining shall be Contractual Faculty as per AICTE norms and standards.
The contractual faculty (doing away with the terminology of visiting/adjunct faculty, whatsoever) who have taught for 2 consecutive semesters in the corresponding academic year on full time basis shall be considered for the purpose of calculation in the Student Faculty Ratio.

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

|  | Total number of regular <br> faculty in the department | Total number of <br> contractual faculty in the <br> department |
| :---: | :---: | :---: |
| CAY | 21 | 0 |
| CAYm1 | 21 | 0 |
| CAYm2 | 20 | 0 |

Table 5.1.1
Average SFR for three years: 12.84
Assessment SFR :20

### 5.2 Faculty Cadre Proportion(25)

The reference Faculty cadre proportion is 1(F1):2(F2):6(F3)
F1: Number of Professors required $=1 / 9 \times$ Number of Faculty required to comply with 15:1 Student-Faculty ratio based on no. of students ( N ) as per 5.1
F2: Number of Associate Professors required $=2 / 9 \times$ Number of Faculty required to comply with 15:1 Student-Faculty ratio based on no. of students ( N ) as per 5.1
F3: Number of Assistant Professors required $=6 / 9 \times$ Number of Faculty required to comply with 15:1 Student-Faculty ratio based on no. of students ( N ) as per 5.1

| Year | Professors |  | Associate Professors |  | Assistant Professors |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Required F1 | Available | Required F2 | Available | Required F3 | Available |
| CAY | 1 | 2 | 2 | 4 | 8 | 15 |
| CAYm 1 | 1 | 2 | 2 | 4 | 8 | 15 |
| CAYm 2 | 1 | 2 | 2 | 3 | 8 | 15 |
| Average Numbe rs | $\mathrm{RF} 1=1.00$ | $A F 1=2.00$ | $\mathrm{RF} 2=2.00$ | $A F 2=3.67$ | RF3 $=8.00$ | $\begin{aligned} & \mathrm{AF} 3=15 . \\ & 00 \end{aligned}$ |

Table B.5.2.

Cadre Ration Marks=
$\left[(\mathrm{AF} 1 / \mathrm{RF} 1)+[(\mathrm{AF} 2 / \mathrm{RF} 2) * 0.6]+[(\mathrm{AF} 3 / \mathrm{RF} 3) * 0.4]{ }^{*} 12.5\right.$
$=[(2.00 / 1.00)+[(3.67 / 2.33) * 0.6]+[(15.00 / 8.00) * 0.4]] * 12.5$
$=[2.00+1.10+0.75] * 12.5$
$=48.12$
Faculty Cadre Proportion Marks $=25$
$>$ If $\mathrm{AF} 1=\mathrm{AF} 2=0$ then zero marks
> Maximum marks to be limited if it exceeds 25
Example: Intake $=60$ (i.e. total no. of students $=180$ ); Required number of Faculty: 9; RF1 $=1$, RF2 $=2$ and RF3 $=6$

Case 1: AF1/RF1 = 1; AF2/RF2 = 1; AF3/RF3 = 1; Cadre proportion marks $=(1+0.6+0.4) \times 12.5$
$=25$

Case 2: AF1/RF1 = 1; AF2/RF2 = 3/2; AF3/RF3 = 5/6; Cadre proportion marks $=(1+0.9+0.3) x$
12.5 = limited to 25

Case 3: AF1/RF1=0; AF2/RF2=1/2; AF3/RF3=8/6; Cadre proportion marks $=(0+0.3+0.53) \times 12.5=10.4$

### 5.3 Faculty Qualification(25)

$F Q=2.5 \times[(10 X+4 Y) / F)]$
where $x$ is no. of regular faculty with Ph.D.,
Y is no. of regular faculty with M.Tech.
$F$ is no. of regular faculty required to comply 20:1 Faculty Student ratio (no. of faculty and no. of students required are to be calculated as per 5.1)

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

| Years | X | Y | F | $\mathrm{FQ}=2.5 \times[(10 \mathrm{X}+4 \mathrm{Y}) / \mathrm{F})]$ |
| :---: | :---: | :---: | :---: | :---: |
| CAY | 6 | 15 | 13 | 23.08 |
| CAYm1 | 6 | 15 | 13 | 23.08 |
| CAYm2 | 5 | 15 | 13 | 21.15 |
| Average Assessment |  |  |  | 22.46 |

Table B.5.3

### 5.4 Faculty Retention (25)

| Description | $2019-20$ | $2020-21$ |
| :---: | :---: | :---: |
| No.of Faculty retained | 19 | 18 |
| Total No.of Faculty | 20 | 20 |
| \% of Faculty Retained | 95 | 90 |

Average: 92.9
Assessment Marks: 25

| ITEM | Marks |
| :---: | :---: |
| (\% of faculty retained during the period of assessment keeping CAYm3 as base year) |  |
| $>=90 \%$ of required Faculty members retained during the period of assessment keeping CAYm3 as base year) | 25 |
| $>=75 \%$ of required Faculty members retained during the period of assessment keeping CAYm3 as base year) | 20 |
| $>=60 \%$ of required Faculty members retained during the period of assessment keeping CAYm3 as base year) | 15 |
| $>=50 \%$ of required Faculty members retained during the period of assessment keeping CAYm3 as base year) | 10 |
| $<50 \%$ of required Faculty members retained during the period of assessment keeping CAYm3 as base year) | 0 |

Table B.5.4

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 5.5 Innovations by the Faculty in Teaching and Learning Tower of Hanoi Problem using Physical demonstration(20)

The Tower of Hanoi (also called the Tower of Brahma or Lucas' Tower and sometimes pluralized as Towers) is a mathematical game or puzzle. It consists of three rods and a number of disks of different sizes, which can slide onto any rod. The puzzle starts with the disks in a neat stack in ascending order of size on one rod, the smallest at the top, thus making a conical shape.

The objective of the puzzle is to move the entire stack to another rod, obeying the following Simple rules:

1. Only one disk can be moved at a time.
2. Each move consists of taking the upper disk from one of the stacks and placing it on top of another stack or on an empty rod.
3. No larger disk may be placed on top of a smaller disk.

With 3 disks, the puzzle can be solved in 7 moves. The minimal number of moves required to
solve a Tower of Hanoi puzzle is $2^{n}-1$, where $n$ is the number of disks.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Lecture Method and Interactive Learning:

An interactive lecture is an easy way for instructors to intellectually engage and involve students as active participants in a lecture-based class of any size. The faculty use chalk and board and audio visual aids in teaching .Students are also encouraged to actually interact during the lecture hour by getting the droughts' clarified on the spot.
Project Based Learning:
During the period of study in the 6th to 8th semester, many real time projects are given to the students and they are guided by both faculty and Industry/Research personnel.

## Computer Assisted Learning:

The College has required number of computers, printers, LCD projectors, Application and system software .These are effectively used for teaching. SMART Class Room: Smart classrooms are technology enhanced classrooms that foster opportunities for teaching and learning. Faculties are using SMART class room to provide interactive session. Projector is used for demonstration, video (NPTEL), audio of classes. Following are some additional pedagogical initiatives taken by the department in addition to Chalk \&Talk, Lectures, assignments,
> Power Role Play
> point presentation, tutorials; Group assignments and project
> E-tutorial
> Lecture interspersed with discussions among students Analogy with live examples from industries and surroundings Working model/Visual charts/ videos

Interactive learning is achieved by the use of Classrooms aided with LCD projectors to play NPTEL videos, webinars etc.

Content Based Question Making: Students are made to develop Questions Based on the topic and then taught accordingly how to answer the questions

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Video Based Student Enhancement: Application videos of the topics are showed, based on which students get a real life exposure of the scenario where the concepts they have learned is Applied Simulated Software Based Learning: Topics are simulated using software tools by which the students can directly relate to the topics being taught

E-based Link Exposure: The links are provided for the students where they can do self study or go for in depth knowledge of any topics Animated Method of Learning: Concepts hard to visualize are taught using Animations

Role Playing: For easy understanding the students are made into various formations like block diagrams or components etc

Brainstorming: The students are made to discuss the topics before starting and the lectures are based on the discussions made

Innovations by the Faculty in teaching and learning shall be summarized as per the following description. Contributions to teaching and learning are activities that contribute to the improvement of student learning. These activities may include innovations not limited to, use of ICT, instruction, delivery, instructional methods, assessment, evaluation and inclusive class rooms that lead to effective, efficient and engaging instruction. Any contributions to teaching and learning should satisfy the following criteria:
> The work must be made available on Institute website
> The work must be available for peer review and critique
> The work must be reproducible and developed further by other scholars

The department/institution may setup appropriate processes for making the contributions available to the public, getting them reviewed and for rewarding. These may typically include statement of clear goals, adequate preparation, use of appropriate methods, and significance of

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

results, effective presentation and reflective critique
Faculty in the Institution prioritize best teaching practices and employ all possible teaching learning methodologies for effective delivery. Teaching community incorporates all sort of activities to enhance student learning. These activities include

Usage of LMS: It enables students learn better by increasing their engagement in class room activities.
Technology facilitates self-learning
Useful in assessment and evaluation
A platform for Student Teacher interface

Laboratory Teaching Method: Students learn through investigations, conduct experiments, observations, process/apply theories.

Theory verified by practical approach using data acquisition systems in the analysis

Develops the power of observation and reasoning Learn to handle instruments

Improves technical writing

## Active Learning Methods:

> An effective approach for enhanced learning through student engagement
> Collaborative Learning
> Flipped Classrooms
> Project Based Learning
> Activity Based Learning
> Blended Learning
> Brainstorming
> Case studies
> Micro Projects

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

ICT Enabled Classrooms: Usage of presentation techniques such as video lectures, power point presentations.

Self-Learning: It is important to identify one's learning goals to engage themselves in self-directed learning. Students are encouraged to involve studying without direct supervision of course instructors. Students are enrolled in number of Massive Courses and attend webinars. Mentors monitor their learning process.

Students are motivated towards self-directed learning through
> Student Seminar
> Workshops
> Conferences
> Industrial Visits
> Invited Talks
> Tech Talks
> Digital Library
> E-Journals
5.6 Faculty as participants in Faculty development/ training activities/STTPs (15)
, A Faculty scores maximum five points for participation
>Participation in 2 to 5 days Faculty development program:3
Points

| Name of the Faculty | Max 5 per faculty |  |  |
| :--- | :---: | :---: | :---: |
|  | $2019-2020$ | $2018-2019$ | $2017-18$ |

| :--- | :--- | :--- | :--- | ---: | :--- |
| 1 | P L | K | MEDICAL | DETECTION | USING | 2019

Ph.D. guided /Ph.D. awarded during the assessment period while working in the institute

1. DR.NARENDRUNI LAKSHMI PRIYA, Associate Professor has received her Ph.D. during the academic year 2017-2018.
2. DR.P L K SRAVANTHI, Associate Professor has received her Ph.D. during the academic year 2019-2020.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 5.7.2 Sponsored Research (5)

Funded research:
(Provide a list with Project Title, Funding Agency, Amount and Duration) Funding amount (Cumulative during three academic years):
Amount > 20 Lacs - 5Marks
Amount >= 16 Lacs and<=20 lacs- 4 Marks
Amount >= 12 Lacs and< 16 lacs- 3 Marks
Amount $>=8$ Lacs and $<12$ lacs- 2 Marks
Amount $>=4$ Lacs and $<8$ lacs - 1 Mark
Amount <4 Lacs- 0 Mark
The college has not derived any Sponsored Research projects from outside; however, The Management has taken an initiative to provide seed funding for the students and post graduate researchers at institutional levels of their own funds. The following are the details:
Seed funds allotted for the year 2018-2019

| S. No | Allotted seed fund |
| :---: | :---: |
| 1 | Rs. 550000 |

Seed funds allotted for the year 2017-2018

| S. No | Allotted seed fund |
| :---: | :---: |
| 1 | Rs. 550000 |

Seed funds allotted for the year 2016-2017

| S. No | Allotted seed fund |
| :---: | :---: |
| 1 | Rs. 570000 |

Seed funds allotted for the year 2015-2016

| S. No | Allotted seed fund |
| :---: | :---: |
| 1 | Rs. 530000 |

### 5.8 Faculty Performance Appraisal and Development System

 (FPADS) (30)Faculty members of Higher Educational Institutions today have to perform a variety of tasks pertaining to diverse roles. In addition to instruction, Faculty members need to innovate and conduct research for their self-renewal, keep a breast with changes in technology, and develop expertise for effective implementation of curricula. They are also expected to provide services to the industry and community for understanding and contributing to the solution of real life problems in
industry. Another role relates to the shouldering of administrative responsibilities and co-operation with other Faculty, Heads-ofDepartments and the Head of Institute. An effective performance appraisal system for Faculty is vital for optimizing the contribution of individual Faculty to institutional performance.
The assessment is based on:
> A well-defined system for faculty appraisal for all the assessment years (10)
> Its implementation and effectiveness (20)
A well-defined system for faculty appraisal for all the assessment years
(i)Faculty Self Assessment - A format is being provided which the faculty has to fill twice every year
(ii)Departmental Assessment Committee - It assess results after every end semester exams
(iii)Feedbacks from Students - Discussion with student representatives and gets feedbacks about every individual faculty monthly once

## Faculty Self Assessment:-

(i)Implementation: - The faculty fills a form by which he can know what all shortcomings he has done in teaching a particular subject
(ii)Effectiveness: - The faculty hence becomes aware so as not to repeat the same thing again, as well as it helps him to cover the subject effectively in the coming semesters

## Departmental Assessment Committee

(i)Implementation:-The End semester results are assessed using various criteria"s as well as compared with the internal exams conducted (ii)Effectiveness:-This helps a faculty to motivate and help students to improve in the subject

## Feedbacks from Students

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

(i)Implementation:-Every month a meeting is held with the students committee

## Kodada Institute of Technology \& Science for Women

(Approved by AICTE, New Delhi, Affiliated to JNTU, Hyderabad)

### 5.9 Visiting/ Adjunct/Emeritus Faculty etc. (10)

Adjunct faculty also includes Industry experts. Provide details of participation and contributions in teaching and learning and/or research by visiting/adjunct/Emeritus faculty etc. for all the assessment years:

- Provision of inviting/having visiting/adjunct/emeritus faculty (1)
- Minimum 50 hours per year interaction with adjunct faculty from industry/retired professors etc.
(Minimum 50 hours interaction in a year will result in 3 marks

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING
for that year; 3 marks $\times 3$ years $=9$ marks)

### 6.3 LABORATORIES: MAINTENANCE AND OVERALL AMBIANCE(10):

 Maintenance:1.Do's and Don'ts and Safety measures rules are displayed in each laboratory.
2.Qualified Technical Staff are available for maintenance of Hardware and Software.
3.Department is having 20 KV UPS power backup in Computer Labs..
4.College is having internet connectivity ( $\mathbf{1 0 0} \mathbf{~ M b p s}$ ) and Wi-Fi access for Students and Faculty.
5.The labs do have good ambience as the PCs are arranged in a way that students can feel comfortable while using them.
6.Doing Computer maintenance(Software and hardware) regularly by Technician .

## Ambiance:

1.Department Laboratories have sufficient furniture and with adequate storage space, and equipment to cater to the UG courses as per curriculum requirements.
2.Lab Tables and Chairs / Stools are cleaned and maintained regularly.
3.Department has experienced faculty to educate them in all the fields of engineering.
4.Split Air conditioners are installed in the Computer labs.
5.Labs are equipped with sufficient hardware and licensed and free ware software to run program specific curriculum and off program curriculum.
6. Laboratory manuals are available in all the laboratories.
7.Sufficient numbers of windows are available for ventilation and natural light and every lab has one exit.
8.Lighting system is very effective, along with the natural light in every corner of the rooms.
9.Each Lab is equipped with computer, Internet, and such other amenities.

## House Keeping:

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Responsibilities of House Keeping Team

1. Providing House Keeping \& Land Scaping Services for Buildings, Lawns, Road Cleaning and other Areas in KITS-W Campus provided.
2.Providing House Keeping Services for Sweeping \& Cleaning Services in all buildings by deploying Sweepers and mechanized housekeeping.
3.Providing Services for Road sweeping \& cleaning, cleaning of Sewage \& Drainage lines, sweeping and cleaning of Lawns and open areas of campus, etc,
4.Maintenance of lawns, Plants \& Hedges, Trees, Cleaning of Light and Scrub Jungle services, etc. Providing services for distribution of Drinking Water in Campus.

Details of Team In charge and Members

| S.NO | Team member | Designation |
| :---: | :--- | :---: |
| 1 | P.SAKETH | House Keeping Supervisor |

Table B.6.3 Details of Housekeeping Team and their responsibilities

### 6.4 PROJECT LABORATORY(5)

1.The department is well equipped with project laboratory which consists of 30 well configured computer systems.
2.All the systems are equipped with latest softwares like GCC Compiler,open office,MYSQL,ECLIPSE,JDK1.7, UML Graph,Tomcat,Orange, and the students have free access to the lab during their project period.
3.All the computers in the lab are connected to the100Mbps internet and the students can browse the internet during the course of project work.
4.During the period of project work the students are assigned respective systems and the lab is being employed regular basis.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 7.1 Actions taken based on the results of evaluation of each of the POs and PSOs (20) <br> POs Attainment Levels and Actions for Improvement- (2017-18)

## PO1: Engineering knowledge

Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

| PO\# | Target Level | Attainment Level | Observations |
| :---: | :---: | :---: | :---: |
| PO1 | $\mathbf{1 . 9 5}$ | $\mathbf{2 . 1 3 7}$ | $\square$ Target attained |
| Action 1: The target for the next assessment year is reset with the attained |  |  |  |
| value (2.137). The POAC suggested mentors to identify the difficult areas of the |  |  |  |
| courses C223 and C423 which have low attainment value and to advice the |  |  |  |
| forthcoming students to focus on the difficult areas so as to improve PO |  |  |  |
| attainment for the next assessment year. |  |  |  |

## PO2: Problem analysis

Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
PO2
2.01
2.137
Target attained

Action 1: The target for the next assessment year is reset with the attained value (2.137). The POAC suggested mentors to identify the difficult areas of the courses C423 and C211 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO3: Design/development of solutions

Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public, health and safety, and the cultural, societal, and environmental considerations.

| PO3 | 1.94 | 2.145 | $\square$ Target attained |
| :---: | :---: | :---: | :---: |

Action 1: The target for the next assessment year is reset with the attained value (2.145). The POAC suggested mentors to identify the difficult areas of the courses C215 and C211 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.
PO4: Conduct investigations of complex problems
Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions
PO4 $1.83 \quad 2.121 \quad \square$ Target attained

Action 1: The target for the next assessment year is reset with the attained value (2.121). The POAC suggested mentors to identify the difficult areas of the

#### Abstract

courses C223 and C215 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

\section*{PO5: Modern tool usage}

Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations PO5 1.81 2.1 $\square$ Target attained

Action 1: The target for the next assessment year is reset with the attained value (2.14). The POAC suggested mentors to identify the difficult areas of the course C423and C215 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year. P06: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice. | P06 | $\mathbf{1 . 6 5}$ | $\mathbf{1 . 9 1 2}$ | $\square$ Target attained |
| :---: | :---: | :---: | :---: |
| An |  |  |  |

Action 1: The target for the next assessment year is reset with the attained value (1.912). The POAC suggested mentors to identify the difficult areas of the courses C215and C216 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO7: Environment and sustainability

Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

| PO7 | 1.7 | $\mathbf{1 . 8 8 4}$ | $\square$ Target attained |
| :---: | :---: | :---: | :---: |

Action 1: The target for the next assessment year is reset with the attained value (1.884). The POAC suggested mentors to identify the difficult areas of the courses C215and C223 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## P08: Ethics

Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

| PO8 | $\mathbf{1 . 8 2}$ | $\mathbf{2 . 1 2 5}$ | $\square$ Target attained |
| :---: | :---: | :---: | :---: |

Action 1: The target for the next assessment year is reset with the attained value (2.125). The POAC suggested mentors to identify the difficult areas of the courses C215andC415 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO9: Individual and team work <br> Effectively as an individual, and as a member or leader in diverse

| P09 | 1.82 | 2.098 | Target attained |
| :---: | :---: | :---: | :---: |
| Action 1: The target for the next assessment year is reset with the attained value (2.098). The POAC suggested mentors to identify the difficult areas of the courses C215and C223 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year. |  |  |  |
| P010: Communication |  |  |  |
| Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions. |  |  |  |
| PO10 | 1.87 | 2.097 | $\square$ Target attained |

Action 1: The target for the next assessment year is reset with the attained value (2.097). The POAC suggested mentors to identify the difficult areas of the courses C423 and C215 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO11: Project management and finance

Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments
P011 1.82 2.044 $\quad$ Target attained

Action 1: The target for the next assessment year is reset with the attained value (2.044). The POAC suggested mentors to identify the difficult areas of the courses C423 and223which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## P012: Life-long learning

Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

| P012 | 1.78 | 1.971 | $\square$ Target attained |
| :---: | :---: | :---: | :---: |

Action 1: The target for the next assessment year is reset with the attained value (1.971). The POAC suggested mentors to identify the difficult areas of the courses C215 and C423 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.
PSOs Attainment Levels and Actions for Improvement- (2017-18)
PSO1: Computing Techniques
Apply the knowledge about principles of programming languages, Computer Algorithms, Databases, System Software and Computer Networks for the interconnection.

| PSO1 | 1.89 | 2.089 | $\square$ Target attained |
| :---: | :---: | :---: | :---: |
| Action 1: The target for the next assessment year is reset with the attained value (2.089). The POAC suggested mentors to identify the difficult areas of the courses C323and C423 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year. |  |  |  |
| PSO2: Computer Product and Application Development |  |  |  |
| Interpret and analyze the problem, formulate an efficient hardware and software solution for the real world, socio-industry related problems and needs using computing methodologies and latest technologies. |  |  |  |
| PSO2 | 1.94 | 2.201 | $\square$ Target attain |
| Action 1: The target for the next assessment year is reset with the attained value (2.201). The POAC suggested mentors to identify the difficult areas of the courses C423 and C215 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year. |  |  |  |
| PSO3: Successful Career and Entrepreneurship Perspectives |  |  |  |
| Fulfilling desire by attaining Employment, Excel in competitive examinations, Higher studies, Research, and initiate startups. |  |  |  |
| PSO3 | 1.9 | 2.131 | $\square \mathbf{T}$ |
| Action 1: The target for the next assessment year is reset with the attained value (2.131). The POAC suggested mentors to identify the difficult areas of the courses C323 and C223 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year. |  |  |  |

## POs Attainment Levels and Actions for Improvement- (2018-19)

| POs | Target Level | Attainment Level | Observations |
| :---: | :---: | :---: | :---: |
| PO 1 : Engineering Knowledge |  |  |  |
| PO 1 | 2.137 | 2.18 | Target attained |
| Action1: The target for the next assessment year is reset with the attained value (2.18).The POAC suggested mentors to identify the difficult are as of the courses C213 and C316 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year. |  |  |  |
| PO 2 : Problem Analysis |  |  |  |
| PO 2 | 2.137 | 2.209 | Target attained |

Action 1: The target for the next assessment year is reset with the attained value (2.209). The POAC suggested mentors to identify the difficult areas of the course C215 and C311 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

PO 3 : Design/development of Solutions
PO 3
2.145
2.179
Target attained

Action 1: The target for the next assessment year is reset with the attained value (2.179). The POAC suggested mentors to identify the difficult areas of the course C223 and C313 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO 4 : Conduct Investigations of Complex Problems

$$
\text { PO } 4
$$

2.121
2.082

Target not attained List of Courses with low PO-4 attainment: C225(FLAT), C314(CD)
The Courses namely C225 and C314 shall be concentrated for the next academic year as they have low PO-4 attained values. The target value (2.121) set same for next academic year.
Action 1: Review the basic concepts of FLAT
Action 2: Additional classes need to be conduct to understand the "Complier design" concepts.

PO 5: Modern Tool Usage

| PO 5 | 2.1 | 2.111 | Target attained |
| :--- | :--- | :--- | :--- |

Action 1: The target for the next assessment year is reset with the attained value (2.111). The POAC suggested mentors to identify the difficult areas of the course C223 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

PO 6 : The Engineer and Society

| PO 6 | 1.732 | 1.842 | Target attained |
| :--- | :--- | :--- | :--- |

Action 1: The target for the next assessment year is reset with the attained value (1.842). The POAC suggested mentors to identify the difficult areas of the course C215 and C314 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

$$
\text { PO } 7 \text { : Environment and Sustainability }
$$

PO 7
1.764
1.784
Target attained

Action 1: The target for the next assessment year is reset with the attained value (1.784). The POAC suggested mentors to identify the difficult areas of the course C224 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO 8 : Ethics

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## PO 8 <br> 2.125 <br> 2.008

Target not attained List of Courses with low PO-8 attainment: C224(ES), C313(SE)
The Courses namely C224 and C313 shall be concentrated for the next academic year as they have low PO-8 attained values. The target value (2.008) set same for next academic year.
Action 1: A Workshop will be organized on "Ethical hacking".
Action 2: Additional classes need to be conduct to understand the Software Engineering.

PO 9 : Individual and Team Work

| PO 9 | 2.098 | 2.104 | Target attained |
| :--- | :--- | :--- | :--- |

Action 1: The target for the next assessment year is reset with the attained value (2.104). The POAC suggested mentors to identify the difficult areas of the course C213 and C316 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO 10 : Communication

Target not attained
PO 10
2.12
2.012

List of Courses with low PO-10 attainment: C226(DAA), C314(CD)
The Courses namely C226 and C314 shall be concentrated for the next academic year as they have low PO-10 attained values. The target value (2.121) set same for next academic year.
Action 1: Review the basic concepts of DAA
Action 2: Additional classes need to be conduct to understand the "Complier design" concepts.

PO 11 : Project Management and Finance
PO 11
2.004
2.063
Target attained

Action 1: The target for the next assessment year is reset with the attained value (2.063). The POAC suggested mentors to identify the difficult areas of the course C214 and C314 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

PO 12 : Life-Iong Learning

| PO 12 | 1.931 | 2.028 | Target attained |
| :--- | :--- | :--- | :--- |

Action 1: The target for the next assessment year is reset with the attained value (2.028). The POAC suggested mentors to identify the difficult areas of the course C223 and C316 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

PSOs Attainment Levels and Actions for Improvement- (2018-19)

## Attainment <br> Level

## PSO 1 : Computing Techniques: Apply the knowledge about principle of programming languages, computer algorithms, databases, system software and computer network for the interconnection.

PSO 1
2.089
2.115
Target attained

Action 1: The target for the next assessment year is reset with the attained value (2.115). The POAC suggested mentors to identify the difficult areas of the course C215 and C423 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

$$

| :---: | :---: | :---: | :---: |
| List of Courses with low PO-9 |  |  |  |
| attainment: C313(SE), C325(MC) |  |  |  |

The course namely C313 and C116 shall be concentrated for the next academic year as they have low PO-9 attained values .The target value (2.108) set same for next academic year.
Action 1: Review the software engineering concepts.
Action 2: Additional classes need to be conduct to understand the Mobile Computing concepts.

## PO10: Communication

Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

| PO10 | 2.21 | 2.09 | $>$ Target Not Attained <br> List of Courses with low PO-10 |
| :---: | :---: | :---: | :---: |
| attainment: C312(DCCN), C325(MC) |  |  |  |

The course namely C325 and C313 shall be concentrated for the next academic year as they have low PO-10 attained values.The target value(2.21) set same for next academic year.
Action 1: Review the mobile computing concepts.
Action 2: Additional classes need to be conduct to understand the Data Communication Computer Networks concepts.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## PO11: Project management and finance

Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments and in multidisciplinary environments

| PO11 | 2.06 | 2.06 | $>$ Target Attained |
| :---: | :---: | :---: | :---: |

Action 1: The target for the next assessment year is reset with the attained value (2.06). The POAC suggested mentors to identify the difficult areas of the courses C325 and C116 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO12: Life-long learning

Recognize the need for, and have the preparation and ability to engage in independent and lifelong learning in the broadest context of technological change.
PO12
2.028
2.109
Target Attained

Action 1: The target for the next assessment year is reset with the attained value (2.109). The POAC suggested mentors to identify the difficult areas of the courses C214 and C115 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PSO1: Computing Techniques

Apply the knowledge about principles of programming languages, Computer Algorithms, Databases, System Software and Computer Networks for the interconnection.

## PSO1

2.115
2.23

Target Attained
Action 1: The target for the next assessment year is reset with the attained value (2.235). The POAC suggested mentors to identify the difficult areas of the courses C313 and C214 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PSO2: Computer Product and Application Development

Interpret and analyze the problem, formulate an efficient hardware and software solution for the real world, socio-industry related problems and needs using computing

| PSO2 | 2.2 | 2.2 | $>$ Target Attained |
| :---: | :---: | :---: | :---: |

Action 1: The target for the next assessment year is reset with the attained value (2.2). The POAC suggested mentors to identify the difficult areas of the courses C214 and C325 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.
PSO3: Successful Career and Entrepreneurship Perspectives Fulfilling desire by attaining Employment, Excel in competitive examinations, Higher studies, Research, and initiate startups

| PSO3 | 2.131 | $\mathbf{2 . 1 8}$ | $>$ Target Attained |
| :--- | :--- | :--- | :--- |

Action 1: The target for the next assessment year is reset with the attained value (2.177). The POAC suggested mentors to identify the difficult areas of the courses C325 and C411 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

POs Attainment Levels and Actions for Improvement- (2020-21)

| PO1: Engineering knowledge |  |  |  |
| :--- | :---: | :---: | :---: |
| Apply the knowledge of mathematics, science, engineering fundamentals, and an <br> engineering specialization to the solution of complex engineering problems. |  |  |  |
| PO\# | Target Level | Attainment Level | Observations |

| PO2 | 2.249 | 2.143 | $>$ Target Not Attained <br> List of Courses with low PO-2 <br> attainment: C313(SE), C325(MC) |
| :---: | :---: | :---: | :---: |

The course namely C313 and C325 shall be concentrated for the next academic year as they have low PO-2 attained values .The target value (2.249) set same for next academic year. Action 1: Review the basic of Mobile Computing concepts.
Action 2: Additional classes need to be conduct to understand the Software Engineering concepts.

## PO3: Design/development of solutions

Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public, health and safety, and the cultural, societal, and environmental considerations.

| PO3 | 2.25 | 2.164 | $>$ Target Not Attained <br> List of Courses with low PO-10 |
| :---: | :---: | :---: | :---: |
| attainment: C312(DCCN), C325(MC) |  |  |  |

The course namely C313 and C325 shall be concentrated for the next academic year as they have low PO-2 attained values .The target value (2.249) set same for next academic year. Action 1: Review the basic of Mobile Computing concepts.
Action 2: Additional classes need to be conduct to understand the Software Engineering concepts.
PO4: Conduct investigations of complex problems
Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions

Action 2:Additional classes need to be conduct to understand the Software Engineering concepts.

### 7.2 Academic Audit and actions taken thereof during the period of Assessment(10)

Academic Audit Committee (AAC) of the department consists of four members with HOD as the chairman and remaining are regular faculty.

## Responsibilities of AAC

$\checkmark$ Through effective teaching and learning process, encourages faculty, staff and students for improvement of quality education.
$\checkmark$ To monitor and verify the academic functions for smooth running of the program.
$\checkmark$ To give suggestions to the faculty for improving teaching and learning process based on feedback.

## Academic audit is conducted on the basis of following parameters

1. Course material files and lab manuals.
2. Monthly student's attendance.
3. Quality of Laboratory works and designs the content of $A V$ classes.
4. Quality of Seminars given by students.
5. Quality of Project work undertaken by students.
6. Internal and External Exam Marks and semester wise performance of the students.

## AAC Suqgestions

Upon completion of the Academic audit, AAC would give the suggestions on the following points:
$\checkmark$ Teacher Quality.
$\checkmark$ Performance Analysis of students in all examinations.
$\checkmark$ Identifying weak and bright students.
$\checkmark$ Identifying Curricular and other gaps.
$\checkmark$ Teaching methods adopted and use of ICT in teaching and learning process.
$\checkmark$ Feedback analysis to evaluate the performance of teachers by students and curricular development.
$\checkmark$ Need for organizing the Faculty development programs.
$\checkmark$ Strengths, weakness, opportunities and challenges of the department.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

$\checkmark$ To focus on computer, internet, library and laboratory facilities.
$\checkmark$ Mentoring system, introduction of remedial classes, bridge courses, guidance for NPTEL/GATE and competitive examinations.
$\checkmark$ Evaluation methods adopted for internal examinations.
$\checkmark$ Actions to be taken based on CO/PO/PSO attainments.
$\checkmark$ Future plans of the department.

## Outcomes of Academic Audit

The impact of Academic audit mechanism helped the department to improve mainly in the following areas:
$\checkmark$ Towards better teaching-learning process.
$\checkmark$ The faculty and student research publications have been improved.
$\checkmark$ Improved \% of marks and pass percentage.

## Other best practices sugqested by AAC

$\checkmark$ Remedial classes are arranged for academically weak and failed students.
$\checkmark$ ICT tools and LCD projectors are provided in each classroom.
$\checkmark$ Established a 24/7 computer center, Coding Lab and department library.
$\checkmark$ Library timings have been extended from 8 AM- 8 PM everyday.
$\checkmark$ Spoken English training classes are being provided for students.
$\checkmark$ The faculty and student research publications have been improved.
$\checkmark$ Improved \% of marks and pass percentage.

## Other best practices sugqested by AAC

$\checkmark$ Remedial classes are arranged for academically weak and failed students.
$\checkmark$ ICT tools and LCD projectors are provided in each classroom.
$\checkmark$ Established a 24/7 computer center, Coding Lab and department library.
$\checkmark$ Library timings have been extended from 8 AM- 8 PM everyday.
$\checkmark$ Spoken English training classes are being provided for students.

### 7.3 Improvement in Placement, Higher Studies and entrepreneurship (10)

Assessment is based on improvement in:

- Placement: number, quality placement, core industry, pay packages etc.
- Higher studies: performance in GATE, GRE, GMAT, CAT etc., and admissions in premier institutions
- Entrepreneurs

The following is the detailed analysis on the improvement made in the placement subject to number, quality placement and industries relating to students over the various assessment years.

| S. No. | Academic <br> Year | Number of Students <br> Placed |
| :---: | :---: | :---: |
| 1 | $2017-18$ | 22 |
| 2 | $2018-19$ | 23 |
| 3 | $2019-20$ | 25 |
| 4 | $2020-21$ | 30 |
| Total |  | 100 |

## PLACEMENT IMPROVEMENT

#### Abstract

8.5.2. Actions taken based on the results of evaluation of relevant Pos (The attainment levels by direct (student performance) are to be presented through Program level Course - PO matrix as indicated)(5)

POs Attainment Levels and Actions for improvement (2017-18)

| POs | Target <br> Level | Attainment <br> Level | Observations |
| :--- | :--- | :--- | :--- |

PO1: Engineering knowledge

| $\mathbf{P O}$ | 1.9 | 1.9 | Target attained |
| :--- | :--- | :--- | :--- |
| $\mathbf{1}$ |  |  |  |

Action1: The target for the next assessment year is reset with the attained value (1.9). The POAC suggested mentors to identify the difficult are as of the courses C112\&C116 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO2: Problem analysis

| PO | 1.7 | 1.7 | Target attained |
| :---: | :---: | :---: | :---: |

Action 1: The target for the next assessment year is reset with the attained value (1.7). The POAC suggested mentors to identify the difficult are as of the courses C112\&116 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.
PO3: Design/development of solutions

| PO 3 | 1.9 | 1.6 | Target not attained <br> List of courses with low PO-4 attainment <br> values are C112 |
| :--- | :--- | :--- | :--- |

The Courses namely C112 shall be concentrated for the next academic year as they have low PO-4 attained values. The target value (1.9) set same for next academic year.
Action 1: Review the basic concepts of Engineering chemistry
Action 2: Additional classes need to be conduct to understand the "Engineering chemistry" concepts.
PO4: Conduct investigations of complex problems

| PO 4 |
| :--- |

## P05: Modern tool uses

| PO 5 | 1.2 | 1.6 | Target attained |
| :--- | :--- | :--- | :--- |

Action1: The target for the next assessment year is reset with the attained value (1.6). The POAC suggested mentors to identify the difficult are as of the courses C 128 which have lo attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.
P06:The engineer and society

| PO 6 | 1.3 | 1.7 | Target attained |
| :--- | :--- | :--- | :--- |

Action1: The target for the next assessment year is reset with the attained value (1.7). The POAC suggested mentors to identify the difficult are as of the courses C 128 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO7: Environment and sustainability

| PO 7 | 1.3 | 1.8 | Target attained |
| :--- | :--- | :--- | :--- |

Action1: The target for the next assessment year is reset with the attained value (1.8). The POAC suggested mentors to identify the difficult are as of the courses C 112 which have lo attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO8: Ethics

| PO 8 | 0 | 0 | Target attained |
| :--- | :--- | :--- | :--- |

Action1: The target for the next assessment year is reset to value (1.0).
PO9: Individual and team work

| PO 9 | 1.1 | 2.2 | Target attained |
| :--- | :--- | :--- | :--- |

Action1: The target for the next assessment year is reset with the attained value (2.2). The POAC suggested mentors to identify the difficult are as of the courses C 116 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## PO10: Communication

| PO <br> 10 | 1.4 | 2.9 | Target attained |
| :--- | :--- | :--- | :--- |

Action 1: The target for the next assessment year is reset with the attained value (2.9). The POAC suggested mentors to identify the difficult are as of the courses C 117 which have lo attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

| PO11:Project management and finance |  |  |
| :--- | :--- | :--- |
| PO <br> 11 | 0 | 0.62 |
| Action1: The target for the next assessment year is reset with the attained |  |  |
| value (1.0). |  |  |
| PO12: Life-long learning |  |  |
| PO | 1.82 | 1.4 |
| 12 |  |  |

## PSOs Attainment Levels and Actions for Improvement- (2017-18)

PSO 1: Computing Techniques: Apply the knowledge about principle of programming languages, computer algorithms, databases, system software and computer network for the interconnection.

| PSO 1 | 1.5 | 2.12 | Target attained |
| :--- | :--- | :--- | :--- |

Action 1: The target for the next assessment year is reset with the attained value (2.12). The POAC suggested mentors to identify the difficult are as of the courses C 124 which have lo attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.
PSO 2 : Computer product and Application Development: Interpret and analyze the problem, formulate an efficient hardware and software solution for the real world Socio - industry related problems and needs using computing methodologies and latest technologies.

| PSO 2 | 1.5 | 2.14 | Target attained |
| :--- | :--- | :--- | :--- |

Action 1: The target for the next assessment year is reset with the attained value (2.14). The POAC suggested mentors to identify the difficult are as of the courses C124 which have lo attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

| PSO 3 : Successful Career and Entrepreneurship Perspectives: |  |  |
| :--- | :--- | :--- |
| Fulfilling desire by attaining employment, excel in competitive |  |  |
| examinations, higher studies, research and initiate startups |  |  |
| PSO 3 | 1.59 | 1.83 |

Action 1: The target for the next assessment year is reset with the attained value (1.83). The POAC suggested mentors to identify the difficult are as of the courses C 116 which have lo attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

POs Attainment Levels and Actions for improvement (2018-19)

| POs | Targ <br> et <br> Level | Attain <br> ment <br> Level | Observations |
| :--- | :--- | :--- | :--- |
| PO1: Engineering knowledge |  |  |  |
| PO <br> $\mathbf{1}$ | 1.9 | 1.7 | Target not attained <br> List of courses with low PO-1 attainment values <br> are C111 |

The Courses namely C111 shall be concentrated for the next academic year as they have low PO-1 attained values. The target value (1.9) set same for next academic year.

Action 1: Review the basic concepts of Engineering Mathematics
Action 2: Additional classes need to be conduct to understand the "Mathematics-1" concepts.

## PO2: Problem analysis

| $\mathbf{P O}$ | 1.7 | 1.7 | Target attained |
| :--- | :--- | :--- | :--- |
| $\mathbf{2}$ |  |  |  |

Action1: The target for the next assessment year is reset with the attained value (1.71).The POAC suggested mentors to identify the difficult are as of the courses C111 which have low attainment value and to advice the forthcoming students to focus on the difficult areas so as to improve PO attainment for the next assessment year.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## CRITERION 9 <br> STUDENT SUPPORT SYSTEMS

## 9.1: MENTORING SYSTEM TO HELP AT INDIVIDUAL LEVELS(5)

The institution is able to achieve visionary goals and able to attain the set targets believed to be effective by implementation of mentoring system. Counseling is the activity that provides assistance, advice and guidance to the students to overcome their personal problems and difficulties in academics. The mentor continuously monitors the performance of the students and guides them for overall growth and development. The faculty advisor also maintains an excellent rapport with parents who are informed of the progress of their wards on regular basis.

## Structure of mentoring_system:

Class In charges and class representatives (CRs) are nominated for each section in the beginning of every semester. In addition, one faculty mentor is nominated for a group of 15 students.

The structure of mentoring system in KITSW is as follows:
Number of faculty mentors : All the Faculty Members
Number of students per mentor : 15
Frequency of Meeting : Twice in a semester or as and when needed

## Mentor Card:

Every student is registered with a mentor and provided with a MENTOR CARD. The following data is furnished by the mentor in the mentor card:

1. Student personal information.
2. Student academic progress.
3. Details of counseling the Student.
4. Teacher - Parent Communication Report.
5. The structure of a mentor card is shown in figure 9.1 a.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Fig 9.1 a : Sample Mentor Record

## Objectives of Mentoring System:

To provide able guidance to students towards achieving professional fulfillment, assessment of his/her academic progress as well as personal growth. The students are also advised on the following routine aspects:
$\checkmark$ Backlogs and how to clear.
$\checkmark$ Performance in mid/lab/End Examination.
$\checkmark$ Attendance.
$\checkmark$ Performance in the class.
$\checkmark$ Personal problems/difficulties if any.

## Efficacy of Mentoring System:

The mentoring system developed by the institute has been proved to be effective considering the following parameters:
$\checkmark$ Reduced detention
$\checkmark$ The involvement of students in the academics, co-curricular and extra- curricular whether improved.
$\checkmark$ Keen interaction is made possible as number of students per mentor is limited and individual's talent is identified and encouraged towards excellence.
$\checkmark$ Better discipline
$\checkmark$ Better communication skills in students

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Types of Mentoring:

The following figure illustrates types of mentoring.

Fig: KITS for WomenTypes of Mentoring Systems

Professional Guidance: Mentors counsel students regarding professional goals, selection of career and higher education.

Course work specific: Mentors counsel students regarding:
$\checkmark$ Attendance and performance in present and previous semesters.
$\checkmark$ Requirement of remedial and prerequisite courses.
$\checkmark$ Requirement of Guest Lectures.
$\checkmark$ Explain students do's and don'ts in the laboratories.
$\checkmark$ To give feedback regarding quality of teaching.
$\checkmark$ Explain the facilities in laboratories.

## Technical skill develonment; Mentors

encourage students to:
To prepare research papers and present in symposiums.

Soft skill development: Mentors counsel students regarding:
$\checkmark$ To improve the communication skills, mentors explain the importance of English communication lab of the UG Curriculum to students.

## 9.2: FEEDBACK ANALYSIS AND REWARD / CORRECTIVE MEASURES TAKEN, IF ANY (10)

The college has a mechanism for evaluation of teachers with the help of taking feedback from the students.

- The feedback is collected from the students twice in a semester on each course. The feedback helps to
appraise a faculty on various parameters and helps to determine the degree of enhancement required for various parameters.
- The performance of the faculty is evaluated with this feedback in various aspects such as punctuality, completion of syllabus, effectiveness in teaching etc. on a five point scale. The feedback helps in the assessment of faculty strengths, weaknesses and improves the quality of teachinglearning process.
- The HOD and senior professor counsel the faculty members to improve the aspects that need improvement.
- The course teachers employ suitable mechanisms such as taking extra classes, personal guidance, provision of additional study material etc. to ensure that each student understands the course well.

## Types of feedbacks collected from students:

Oral Feedback It is an informal mid-semester feedback is collected from the students in the middle of each semester for each course. It helps to assess the coverage of syllabus and identify the difficulties in learning.

Off Line Feedback: It is the semester-end feedback helps to refine the teaching-learning process at the end of the semester. The effectiveness of this process is evident from the subsequent Internal Assessment results. The Off Line feedback is calculated as Percentile (\%) of the values given by the all the students. The feedback is reviewed by the principal and then sent to the HOD of each department for their necessary action.
The feedback form has been designed to include effective feedback questionnaire. It consists of following items as shown in the sample feedback Performa given below:

## Parameters for Offline Student Feedback

Students express their satisfaction level of faculty on these parameters.

Student Feedback Form on course

Student Feedback Form on course

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

The faculty is graded as follows based on the Student Feedback on the Overall Performance. Each item is graded by the student on a 5-point scale:

| RUBRICS for Student Feedback System <br> based on the Overall Performance |  |
| :---: | :--- |
| Range | Grade |
| 1 | POOR |
| 2 | FAIR |
| 3 | GOOD |
| 4 | VERY GOOD |
| 5 | EXCELLENT |

STUDENT FEEDBACK ANALYSIS FOR 2019-20

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## STUDENT FEEDBACK ANALYSIS FOR 2020-21

## How are Comments used?

The feedback report of the faculty showing its grade and students comments if any is intimated to the faculty through the HOD of the department. The report enables the faculty to overcome his/her deficiencies so as to improve his/her teaching skills.

## Record of corrective measures taken

The faculty, who has feedback less than 75\%, is handed over the Follow up Action Report as per the following format. The faculty is advised to improve on the areas in which he/she has weaknesses.

The following are the number of corrective actions taken on the faculty over the past 3 years

| Academic Year | No. of corrective actions taken |
| :---: | :---: |
| $2019-20$ | 2 |
| $2018-19$ | 2 |
| $2017-18$ | 3 |

Sample FDP Certificate on Network Security \& Cryptography

## OUTCOME OF FEEDBACK METHODS ADOPTED

The method of feedback collection and its analysis process is based on questionnaires and parameters marked for faculty by the students is quite effective as evident from the high percentage success rate of students in examinations.

## 9.3: FEEDBACK ON FACILITIES(5)

Feedback on facilities mainly taken from the following stake holders:

```
> CURRENT BATCH STUDENTS
> ALUMNI
> PARENTS
> EMPLOYER
```

The online link is given below
Kodada Institue of Technology and Science for Women (kitskodadapps.in)

## In-Campus feedback

Apart from students, teaching faculty and parents will also give the feedback on facilities. They can drop their feedback in suggestion boxes provided and can also express their views by interacting with the faculty members and lab assistants.

## Off-Campus feedback

Feedback was also collected from alumni, parents and employers.

## Corrective Action

Some of the major corrective actions initiated based on the feedback obtained.

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

| SI. | Particulars of feedback | Corrective action taken |
| :---: | :---: | :---: |
| 1 | Non availability of ambulance | Availability of Ambulance |
| 2 | Non availability of female doctor | Female doctor is appointed |
| 3 | Non availability of computer lab after the college hours | 24/7 computer lab established with internet facility works from 8 AM to 10 PM. |
| 4 | Non availability of CODING Lab after the college hours | A 30 computer lab established in block-A works from 8 AM to 10 PM. |
| 5 | Dissatisfaction in Library timings | Main Library timings extended for 5 hours. <br> Works from 8 AM to 8 PM every day. |
| 6 | Requirement of more number of high speed computers | A total of 120, i5 computers were purchased. |
| 7 | Provision of books for competitive exams | Completive exam books purchased for Library. |
| 8 | Training for GATE exams | Coaching classes were arranged. |
| 9 | Wi-Fi connectivity | M/S JIO, BSNL, EXCEL is providing Wi-Fi facilities apart from BSNL. |
| 10 | Hygienic conditions in Girl Student Hostels | Napkin disposal machines provided in all the toilets. |
| 11 | Cleanliness of water coolers | Log sheets are kept at every cooler to verify <br> the cleaning by the house keeping |
| 12 | Quality and taste of food in hostel mess | Fact Finding Committee (FFC) comprising hostel students appointed to test quality of food. |
| 13 | Security of students | One Chief security officer is appointed. |
| 14 | Non availability of skeleton and emergency staff | Insisted emergency staff like doctor, <br> Electrician, driver etc. to stay near the campus. |
| 15 | Availability of latest technologies related labs | IOT labs are established. |

### 9.4 SELF LEARNING(5)

Self-learning scope is provided in the college adequately for every student to enhance/improve their skills. The classroom teaching adopted in the department involves many methods along with chalk and board
teaching. The following methods are implemented by the faculty members to deliver the lectures in an effective manner.
Power point presentations: PPT's are presented in the class room as per the need of courses like explanation of topic with difficult diagrams which will take more time to draw, if topic requires 3-D diagrams and to show some realistic situations with diagrams.
Digital library resources: Student can use digital library facility in our college and students can access through internet for various video lectures, e- books, journals etc.

## Facilities provided for Self Learning

The following facilities are provided in the college for his/her self learning:

## Main Library:

The main library provides the following books for students:

| Particulars of Text and Competitive books |  |  |
| :--- | :--- | :--- |
| SI. No. | Particulars | Qty. |
| 1 | Total No. of Titles | 2281 |
| 2 | Total No. of Volumes | 18557 |
| 3 | Total No. of competitive Books | 200 |
| 4 | Total no. of books available under <br> SC Book Bank scheme | 509 |
| 5 | Total No. of reference books | 3150 |

In addition to above, the following is provided for students:
Daily newspapers are also available in the library.
Reference books, project reports are available.
Career, job aspiring and competitive exam books are also made available

Library

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Departmental Library

Departments have been maintaining respective department library, books, project reports and technical subject videos. Videos, PPT's of selected topics are made available gathered from various recourses.

## E-Learning Support

E-learning support is provided in $24 / 7$ computer center with the following facilities:
NPTEL
J-gate plus
Delnet
Doaj- open access
Virtual labs are also regularly conducted to the students apart from the normal laboratory experiments in order to acquaint them with the practical exposure of conduct of experiment.

### 9.5 CAREER GUIDANCE, TRAINING AND PLACEMENT (10)

(The institution may specify the facility, its management and its effectiveness for career guidance including counseling for higher studies, campus placement support, industry interaction for training/internship/placement, etc.)

The Training and Placement Cell headed by full-fledged Training and Placement Officer K.Vamshi Krishna, continuously takes care of all the training activities to be provided to the students. A full-fledged state of the art Training and Placement cell actively works and arranges on-campus placements and training to the students. The Training and Placement cell of the Institute imparts the requirements of the industry along with their curriculum through programs on preparation of resume, soft skills, communication skills, interview skills, and adapting to the corporate life. The following is the snapshot of Training and Placement Cell of the College.

The college has a full-fledged T \& P department and the Placement Officer monitors and organizes continuously the training and placement

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

activities. The following are the various details of Training and Placement cell of the College.

## The following are the various members of Training and Placement Cell:

| S.No | Name of the faculty | Responsibility |
| :---: | :---: | :---: |
| 1 | Mr. K. VAMSHI <br> KRISHNA | Training \& Placement officer |
| 2 | Mrs. T L N VARA <br> PRASAD | Member |
| 3 | Mr. B. PARAMESWAR | Member |
| 4 | Mrs. J. KIRANMAI | Member |
| 5 | Mr. V. AJAY | Member |

## The following are the various objectives of Training and placement cell of the institute.

- To identify and contact relevant and good industries / companies relating to IT and Core sector.
- To provide career guidance and training to the students and make them competent to succeed in various competitive exams
- The Cell also conducts special training classes on English Language and Communication Skills to improve the communication skills of students which helps the students to improve their technical presentation and interview performance skills.
- Regular training on aptitude and soft skills is provided to the students both by the external and internal resource persons.
- Special customized training based on Industry requirement is also provided to final year students before the commencement of recruitment process

The following are the various activities conducted by the Training and Placement cell for the benefit of students.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Pre Placement Training:

Students who have selected for placement are trained so that their success rate in placement can be high. A lot of effort is spent by the institution to invite top companies to the college for on-campus placements. The companies also need to incur a good amount of expenditure to conduct on-campus placements for two to three days, the companies expect a reasonable number of students during their visit to the college for placement. In view of this, placement activities are being conducted for KITS.

The college has devised excellent training programs which covers the three important areas having bearings on placements:

- English language and communication skills
- Aptitude skills
- Technical training covering core and important subjects.

The following MOUs are presented as exhibits:
An MOU was signed between Efftronics and KITS during 2018-19, to provide training and placements to KITS college students.

## 1) KITSW MOU with ARETE IT Services:

The purpose of MOU is to clearly identify the roles and responsibilities of each party as they relate to implement the project training programs for the students and project training programs/ internships.

MEMORANDUM OF UNDERSTANDING (MOU)
Between
ARETE IT SERVICES PVT. LTD.
And
KITS FOR WOMEN
I. PURPOSE \& SCOPE

1. The purpose of this MOU is to clearly identify the roles and responsibilities of each party as they relate to the implementation of an in-Campus INCUBATION CENTER and the Project Training Programs for the students of the respective institution.
. In particular, this MOU is intended to establish clear guidelines regarding the services provided by ARETE IT SERVICES PVT. LID. (Vijayawada, AP) and the support to be rendered by KITS FOR WOMEN (Kodad, TG) during the tenure of agreement.
. The two parties sign this Memorandum of Understanding with the intention of both being legally bound, accepting the following terms and conditions:

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

KITSW MOU with Indian Services:
Providing industry institute collaborative environment that may lead to enhance their technical skills in par with industry requirements. the following objective /foreseen benefits: Conducting various eventsworkshops/ discussion meet/ contest / hackathon, industry visits , internship programs.

KITSW MOU with Efftronics:
Efftronics propose to collaborate through:

1. Exchanging of expertise by means of Guest Lectures, Technical Seminars, Workshops and other events (during regular working days) for the benefit of the faculty and students.
2. Permitting students for One-day Industrial Visit.
3. Allowing faculty \& Staff for industrial training.
4. Permitting Practical training to students.
5. Attending campus recruitment where the intake depends up on the clearance of all the rounds by the candidate in selection process.

# DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING 

This Agreement made and entered into on 13-Mar-2019 between Kodada institute of tech a science for women And Emtronics Systems Pvi Lid (here in after called Effronics) situated at Brundavan Colony, Vijayawada (A.P.). This MOU shall be valid for 1 year from the date and each party shall be at full liberty to terminate the collaboration with a notice period of 3 months.

## Objectives of the MOU

The objective of this Memorandum of Understanding is:
A. To promote interaction between Kodada institute of tech \& science for women and Eftronics in mutually beneficial areas.
B. To provide a formal basis for initiating interaction between Kodada institute of tech a science for women and Effronics

Proposed Modes of Collaboration
Kodada institute of tech \& science for women and Eftronics propose to collaborate through

1. Exchanging of expertise by means of Guest Leetures, Technical Seminars, Workshops and other events (during regular working days) for the benefit of the faculty and students. 2. Permitting students for One-day Industrial Visit
2. Allowing faculty \& Staff for industrial training
3. Permitting Practical training to students.
4. Attending campus recruitment where the intake depends up on the clearance of all the rounds by the candidate in selection process.

Note: All the aböve modes will be decided upon mutual consent based on Availability, Work Schedules and Manpower of Company.

Date of Agreement: 13-MAR-19

## Industry Interaction for training/ internship/ placement

The college has MOUs for training to improve all types of skills of students:
> with ARETE IT Services for Training/ Internship programs.
> With Efftronics Training/ Internship
> with Telangana Government for Training Program of TASK

## The following MOUs are presented as exhibits:

An MOU was signed between TASK and JNTUHCEJ during 2017-18, to provide training and placements to JNTUHCEJ college students naming it as TATA Affirmative action Programme. 16-10-2020
Hyderabad

```
Dear Dr D.vijaykumar
You've been a valuable member of the TASK family. We are glad that you chose to
we represent a community that is dedicated to making a positive difference to the
quality of higher education in our state.
With the cooperation and support of esteemed members like you, TASK was able to
achieve several milestones in the academic year 2019-20. We successfully skilled
104177 students and 1530 faculty, in addition to organizing over 250 placement drives
*)
aimed at providing better skilling benefits for the students and faculty of the TASK
*)
we
We thing
Yours Sincerely.
    42%
    Shrikant Sinha,
```

## Objectives ARETE IT services and TASK

These industries involve in designing the program, depute trainers to train the faculties and students of our institution. The students are encouraged to take internship program during their semester break. Faculty members give their guidelines, suggestions and scope and contact details of an internship. They also help the students by interacting with the industrial experts, provide the students recommendation letters and other necessary supports. The alumni coordinator constantly interacts with alumni those who are working in the industries and request them to provide necessary guidelines and supports for their.

### 9.6. Entrepreneurship Cell (5)

(The institution may describe the facility, its management and its effectiveness in encouraging entrepreneurship and incubation) (Success stories for each of the assessment years are to be mentioned)
The Institute strongly believes that original and innovative ideas are born in the minds of young people. The Entrepreneurship Development Cell (EDC) at KITS has been established to develop such entrepreneurial spirit among the students and help them to realize their dreams. Effort is made to inculcate these skills from student days and with the objective of providing a whole some education which includes this kind of orientation. In order to do so an EDC cell has been formed in the College with the following objectives

- To conduct various entrepreneurship programs like Training programs, Seminars, awareness camps in order to promote entrepreneurship among the students.
- To create awareness on entrepreneurship among the students.
- To motivate and develop entrepreneurship abilities among the students.
- To create awareness regarding the sources of help and support available to potential entrepreneurs.
$\bullet$

## Vision

> To motivate the young Engineers to stand on their own feet who in turn can provide a foot space to the mankind with leadership qualities using innovative and ethical business practices.

## Mission

> Impart the passion and spirit among budding Engineers toward entrepreneurship and make them self-sufficient and self-confident.
> Encourage innovative, latent talents and skills to converting them into successful entrepreneurs

## Long Term Goals (5 Years)

> Motivate students to develop their own startups.
> Develop business incubators.

## Short Term Goals (2 Years)

> To provide a platform for interaction with entrepreneurs.
> Impart entrepreneurial education/skills amongst students through various trainings and exercise.
> Arrange vibrant interaction with organizations promoting the cause of entrepreneurship.
Organization Structure of EDC:
The Core Committee is supported in the following Working areas:

- Multimedia and Aesthetics
- Public, Corporate Relations and Startup Connect
- Accounts and Documentation

## Future Programs Planned:

The ED cell in the upcoming year is organizing more interaction with successful entrepreneurs, organizing workshops and taking up measure to set up business incubation center in the institute.

1. To organize Entrepreneurship Awareness Camps, Entrepreneurship Development Programs and Faculty Development Programs in the region for the benefit of S\&T persons.
2. To conduct research work and survey for identifying entrepreneurial opportunities (particularly in S\&T areas and Service sector).
3. To guide and assist prospective entrepreneurs on various aspects such as preparing project reports, obtaining project approvals, loans and facilities from agencies of support systems and information on various technologies
4. To organize guest lectures, Seminars, etc. for promotion and growth of S\& T based entrepreneurship.
5. To arrange visits to industries for prospective entrepreneurs.
6. To extend necessary guidance and escort services to the trainees in obtaining approval and execution of their projects.
7. To act as a Regional Information Centre on business opportunities, processes, technologies, market, etc. by creating and maintaining relevant databases.
8. To provide testing, calibration, quality assurance, design, tool room, pilot plant and other facilities for Entrepreneurs besides expertise in

Intellectual Property rights, Patents search, etc.
To conduct skill development training programs leading to self/wage employment.

### 9.7. Co-curricular and Extra-curricular Activities (10)

(The institution may specify the co-curricular and extra-curricular activities) (Quantify activities such as UBA etc.)
The institute regularly encourages students to participate in various cocurricular and extra-curricular activities involving sports and cultural activities. The institute involved in Organizing various programmers like Swatch Bharath, blood donation etc.
Institute actively involves in Independence Day \& Republic Day celebrations to motivate the Engineering students to participate actively.
College has twice got credentials from his Excellency as best Blood Donation Unit.
The college has adopted Palaram, Golthanda village where it conducts every year activities like clean and green, planting saplings, cleaning of village tank, conduct of free medical camp etc.

The institute as well as the department encourages students to actively participate co- curricular activities. The institution has registered to professional bodies like CSI. The department coordinators of these professional bodies encourage students to exhibit their technical skills during department technical fest conducted every year. Lectures \& Expert Talk for Computer Science \& Engineering Branch, Electrical \& Electronics Engineering Branch, Electronics \& Communication Engineering Branch, Civil Engineering Branch.

## 10. GOVERNANCE, INSTITUTIONAL SUPPORT AND FINANCIAL RESOURCES(120)

### 10.1. Organization, Governance and Transparency(40) <br> 10.1.1. State the Vision and Mission of the Institute(5)

| Institution Vision |
| :--- |
| We envision developing an ideal educational institution that caters the <br> dreams of prospective rural women engineers who wish to take up <br> greater challenges in technical arena. |

| Institution Mission |  |
| :---: | :--- |
| MD \# | Statement |
| The aspirations are fulfilled and continue to fulfill: |  |
| M1 | To make apparent the latent talent in rural women <br> M2To provide rural women with conductive atmosphere for them to <br> grow in engineering education |
| M3 | To enrich their academics and soft skills |
| M4 | To equip them with sets of employable skills |
| M5 | To finally mould them into man making and nation building <br> human resources |

10.1.2. Governing body, administrative setup, functions of various bodies, service rules, procedures, recruitment and promotional policies(10)

List the governing, senate, and all other academic and administrative bodies; their memberships, functions, and responsibilities; frequency
of the meetings; and attendance there in, in a tabular form. A few sample minutes of the meetings and action-taken reports should be annexed.

The published rules including service rules, policies and procedures; year of publication shall be listed. Also state the extent of awareness among the employees/ students.

The overall administration is overseen by the Governing Body (GB) of the College. The Governing Body has been framed on the rules and regulations of the affiliating University and consists of people from academics, industry and independent authorities. The Principal is indeed responsible for implementation of strategic plan and reporting to GB. The GB periodically reviews the implementation of the strategic plan keeping in line with the institute vision and mission. The periodical report about the various activities of the college is presented in the GB meeting by the Principal.
The management is also committed and performs the leadership role for effective and efficient conduct of teaching and learning process in the college. The responsibilities of governance include choosing the top academic/administrative functionaries and evaluating their performance, authorizing plans/commitments and evaluating the institute performance. The management has the responsibility for managing and enhancing the overall performance of the institution. The management also bears the responsibility of implementing the systems of governance. The role of governance is to set the right policy and ensure that things are being done in a right manner. On the other hand, the management implements those policies and procedures in the process of doing things properly. This practice of governance has been followed at KITS in order to implement the things in a smooth manner. Role of Principal and Relationship with the Management The GB is headed by the chairman who is responsible for implementing its plans, policies and developmental needs for the benefit of its
stakeholders.The Chairman is responsible for strategic leadership and good governance. The Principal being its Chief academic and administrative Officer provides leadership for the academic, administration and ensures effective implementation of plans and

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

policies of Governing Body for total institutional development.
The Principal ensures that quality education is being imparted to the students and the institute caters to the holistic growth of the students.

Fig: Hierarchy of KITSW

## Composition of Governing Body

| SNO | NAME OF THE COMMITTEE MEMBER | DESIGNATION |
| :---: | :---: | :---: |
| 1 | Mr. Ch.Keshava Rao, Chairman | Chairman |
| 2 | Mr.P.Prasad, Secretary | Member |
| 3 | Mr.V.RamaRaju, Joint Secretary | Member |
| 4 | Mr.V.Satyanarayana, Director | Member |
| 5 | Rrsch: Phagazazal, Tama, Afscolris | Member |
| 6 | Dr.N.V.Ramana, Professor \& Principal JNTÚ, jagityal (University Nomínee) | Member |
| 7 | Mr.Ch.Raghavendra, Engineering Manager, ntel Technologies, Bangalore | Member |
| 8 | Dr. D.Vijay Kumar, Professor of Civil Engineering, Principal | Member |
| 9 | Dr.Ch.Nargarjuna Rao, Professor of H\&S, VicePrincipal | Member |
| 10 | Mr.Ch.Suresh kumar, Head Corporate Affairs | Member |

The Governing Body of KITS comprises of members with strong academic background and administrative experience. This has indeed helped the institution to a great extent. The Governing Body has in place various committees to continuously monitor the academic and administrative activities of the institution. Following the basic principles of good governance, the institution has various academic and administrative committees in place to ensure smooth functioning and efficient governance. The prime objective of these committees is effective utilization of human resource, infrastructure and other facilities and to bring about transparency and accountability in the process of administration.

Frequency of meetings: Twice in a year

## SERVICE RULES

## SERVICE CONDUCT RULES

## 1.General:

(a).These rules shall be called "KITS Engineering College for Women, Kodad, Service and Conduct Rules" and comes into force from the month of july 2011. These rules supersede all the rules put into force, previously.
(b).These rules shall apply to all categories of employees (Teaching and Supporting Staff Members).

## 2.Definition:

(a).College means KITS Engineering College, Kodad
(b).Society means Kakatiya Educational Society, Kodad.
(c).Teaching Post means a post carrying a definite scale of pay / consolidated pay sanctioned without limit of time and included in the cadre of sanctioned posts.
(d).Supporting Staff Members means a person appointed in a NonTeaching post to which no Other person holds a lien.

## 3..Appointing Authority:

All appointments of the faculty and Staff Members of the College shall be made by the Chairman, subject to the approval of the Management.

## 4.Appointment on Contract:

Appointment of faculty and other Staff Members can be made on contract basis by the Management subjected to the approval of the JNTU.

## 5.Mode of Selection:

Selection of the faculty member shall be made by a Selection Committee constituted and approved by the Management.

## 6.Termination of Service/Resignation:

(a).Based on the opinion of the appointing authority, the efficiency of an employee has been impaired due to any infirmity, his/her retention in service is considered undesirable, his/her services may be terminated, by such appointing authority.
(b).Any employee of the College may withdraw his/her engagement, by submitting to the appointing authority, one months notice in writing or payment of one month salary in lieu thereof, if agreed by the appointing authority, provided that the appointing authority may, for sufficient reasons, call upon the employee concerned to continue till the end of the academic session, in which the notice is received.
(c).The other terms and conditions of such employment shall be specified by the appointing authority in the letter of appointment.

## 7.Retirement:

(a).The age of retirement of teaching faculty member shall be as per AICTE Norms.
(b).The age of retirement of other non-teaching Staff Members shall be as per the State Government Rules or as may be decided by the Management/Trust.

## 8.Leave:

(a).No leave can be claimed as a matter of right by an employee. Discretion is reserved with the authority empowered to grant the leave, to refuse and / or to revoke grant of leave at any time according to exigencies of work, Leave can be availed only after getting it sanctioned.
(b).The competent authority to sanction any kind of leave including casual leave is the Head of the Institution / Chairman.
(c).An employee who desires to obtain leave of absence shall submit online leave application form through HRMS software to the competent authority. Such application for Leave shall be made well in advance prior to the commencement of leave except in exigencies or unforeseen circumstances including illness when it is not possible to do so. In such cases, the employee shall take steps to intimate his /her absence to the concerned authority before commencement of the leave. On return from the Leave, the employee shall submit the online leave application form within two working days. If the leave application is not submitted properly and in time, the leave will be rejected and for one day of unauthorized leave, one day salary will be deducted and necessary entries shall be made to record the same.
(d).If an employee proceeding on leave desires an extension of leave, then he/she shall fill an online application form to the concerned authority appointed for the purpose at least 2 days prior to the expiry of the earlier leave period.
(e).A written reply either of grant or refusal of extension shall be sent to the employee through HRMS software, if such reply is likely to reach
before the expiry of the leave originally granted to him/her.
(f).If the leave is refused or postponed, the reason for refusal or the postponement as the case may be, shall be mentioned in the reply.
(g).No leave or extension of leave shall be deemed to have granted unless an order to that effect is passed and communicated to the employee concerned.
(h).An employee shall, before proceeding on leave intimate to the competent authority his/her address while on leave, and shall keep the authority informed of any change in the address previously furnished.
(i).Leave of absence is inadmissible to an employee who has been suspended from duty or against whom disciplinary action is initiated or contemplated. An employee under suspension shall not leave the station where his/her office is situated except with specific permission of the Chairman or Head of the Institution.
(j).An employee may cancel whole or part of the leave applied and resume duty after the permission to do so is obtained from the competent authority.
(k).An employee who has submitted his/her resignation letter will not be permitted to avail any leave during the notice period except for the proportionate casual leave at his / her credit.
(I).No leave shall be granted beyond the date on which an employee is due to retirement on attaining the age of superannuation. All leave at credit shall lapse on attaining the age of superannuation.
(m).No employee of the Institution shall take service or accept any employment elsewhere while on duty or on leave.
(n).An employee shall promptly rejoin duty on expiry of the leave sanctioned. If the leave sanctioned is on Medical grounds, a Hospital certificate along with hospital charges paid bill shall be produced while rejoining duty on expiry of such leave.
(o).The Chairman and the Head of the Institution have the rights to recall and reduce the sanctioned leave period of any employee who is on leave of any kind, in case of any exigencies.
(p).If an employee is recalled on account of exigencies of work cancelling the unexpired portion of leave, the employee shall report for duty immediately.
(q).Overstay of leave shall entail the entire leave ( sanctioned and
non- sanctioned) on loss of pay even though sufficient leave is at credit unless it is established to the satisfaction of the sanctioning authority that the employee was unable to rejoin duty for reasons beyond the control of the employee.
(r).All sick leave applications shall be supported by medical certificate along with hospital charges paid receipt from the hospital/ nursing home, acceptable to or nominated by the competent authority.
( s).All leave application shall be routed through the proper channel.
(t).Unauthorised absence from work for more than 07 days by the staff members, he / she shall not be permitted to report back to the work without the approval from the Management. The concerned department HOD is required to communicate the same to the Management through Head - Human Resources.

## CASUAL LEAVE

All permanent teaching, technical and non-teaching staff members are entitled to twelve days of Casual leave (C.L.) in a calendar year.
In case of permanent staff members, they are eligible for 15 days of Casual leave with full pay in each calendar year. Eight days of CLs will be credited in advance on Jan 1st and remaining Seven CLs will be credited in advance on July 1st of each calendar year.
Casual leave - shall be reckoned per calendar year i.e. from 1st Jan to 31st December. These cannot be carried forward to the next calendar year. The unavailed casual leave shall lapse on 31st December.
All Probationers are entitled for casual leave at the rate of one day for every completed month. However one casual leave will be credited in advance on the 1st day of the month. The unused casual leave will lapse on 31st Dec.
Part - time / visiting employees are not entitled for any kind of leave.
The permanent employee can avail Casual leaves up to 3 days at a time.
The competent authority can sanction up to 3 days of casual leave to staff member's. The casual leaves beyond 3 days shall be the approved by the Chairman in case of extreme emergency.
C.L. shall not be availed without prior sanction of the sanctioning authority. The sanctioning authority may refuse to grant C.L., if he /she feel that the work cannot be managed due to functional reasons. In exceptional cases such as, an emergency caused due to sudden illness or death in the family, information shall be sent to the respective leave sanctioning authority in time enabling them to arrange a substitute.
Casual Leave could be availed for half a day either for the morning
session or on the afternoon session on any working day. Casual leave availed on Saturday will be considered as one full casual leave.
Casual leave can be either prefixed or suffixed to general holidays but not both. If the casual leave is both prefixed and suffixed to general holidays, then one side of the holiday is included as a casual leave. If a casual leave is not available, then the leave will be considered as leave without pay.
Leave cannot be prefixed or suffixed to first \& third Saturday. Such leave will be treated as two days of leave.
Leave without pay shall not be granted in continuation of casual leave. Casual leave already granted if any, shall be cancelled and the leave without pay shall commence from the date on which the casual leave commenced.
Prior permission has to be obtained from the competent authority before proceeding on casual leave. In no case, an employee will be allowed to proceed on casual leave on frivolous grounds.
Staying away from duty without prior permission in the normal circumstances will be construed as absence without leave, resulting in loss of pay. Each day of "absence without leave" shall entitle to two days of pay deduction.
No leave of any kind can be availed of without prior sanctions. Absence without prior permission will be treated as Loss of Pay (L.O.P). Such absence may subsequently be regularized as C.L. if the competent authorities are satisfied with the given circumstances. Repeated absence without prior permission will be viewed as an act of indiscipline and suitable action will be initiated. If the leave application is not submitted properly and in time, the leave will be rejected and for one day of unauthorized leave, one day salary will be cut and necessary entries shall be made to record the same.
In the event that one does not have C.L. to his/her credit, the absence with prior permission will be treated as leave without pay.
Staff members frequently applying for leave due to sickness will have to produce physical fitness certificates from a registered medical practitioner. 10 minutes grace period is allowed to report to duty as per rules. If it crosses beyond 10 minutes is considered as $1 / 2 \mathrm{CL}$ or $1 / 2$ LOP.

## VACATION LEAVE

Vacation leave will be decided by the Chairman / Head of the Institution from time to time
Staff members are entitled to avail vacations during an academic year. These vacations will normally coincide with the student's vacation; however the exact dates of vacation for the staff members will be defined by the Head of the Institution. Staff on vacation can be called on duty by the Head of the Institution whenever the need arises.

Disciplinary action will be initiated against the staff failing to report on duty when called during vacation.
Any staff resigning or planning to resign before the beginning of the semester/academic year cannot avail any vacation. If a staff resigns after availing any vacation, those days will be considered as loss of pay.
Vacation leave must be utilized in the vacation period only.
The payment of salary for the vacation period is subject to the conditions that the staff shall be present on duty on the last working day of commencement of vacation and the first working day on the reopening after vacation.
Staff members who are placed under suspension or against whom disciplinary action is initiated or contemplated will not be eligible to avail any leave benefit. The vacation for Teaching, Technical and NonTeaching staff is as under:
The permanent Teaching staff can avail 14 days of vacation leave i.e. 2 vacation slots of 7 days each in odd to even semester \& 14 days of vacation leave i.e. 2 vacation slots of 7 days each in even to odd semester.
The probationary Teaching Staff can avail 7 days of vacation leave i.e 1 vacation slot of 7 days in odd to even semester \& 7 days of vacation leave 1 vacation slot of 7 days in even to odd semester
Permanent Non - Teaching /Technical Staff can avail 7 days of vacation leave i.e 1 vacation slot of 7 days in odd to even semester \& 14 days of vacation leave i.e 2 vacation slot of 7 days in even to odd semester
The probationary Non - Teaching / Technical staff can avail 3 days of vacation leave during the semester break.
Permanent Administrative Staff (including Library Staff) can avail 7 days of vacation leave i.e 1 vacation slot of 7 days in odd to even semester and 7 days of vacation leave 1 vacation slot of 7 days in even to odd semester.
The probationary staff can avail 7 days of vacation slot i.e 1 vacation slot of 7 days in odd to even semester $\& 7$ days of vacation leave 1 vacation slot of 7 days in even to odd semester
Vacation slots will be assigned as Sunday - Sunday Slots. Vacations cannot be taken in any other ways except the Sunday
Sunday slots. CL may be clubbed with vacation leave with prior approval from the competent authorities. But such leave period should fall within semester break period only.
If a general holidays is in a given vacation slot, the general holiday will be considered as Vacation day. In other words, no additional vacation day will be given for the general holiday.
A faculty is to compulsorily do the assigned invigilation duties. Faculty cannot swap their invigilation duties. If a teacher is found not doing his / her assigned duties even on one day, he /she will forfeit all the vacation slots. If a vacation is taken, it will be considered as loss of
pay. culty can avail the vacation after academic duties have been fulfilled. Head of the Department to ensure that the teacher have fulfilled their academic duties including Internal Assessment \& filling OMR sheets before allotting the vacation slot.

## EARNED LEAVE

Administrative officers including Principal, Director, Registrar, Deans are eligible for 21 days of Earned leave in a calendar year after completion of one year of continuous service in NHCE \& NHC.
HODs and Chief Librarian are eligible for 30 days of Earned leave in a calendar year after completion of one year of continuous service in NHCE \& NHC. Earned leave must be utilized in that calendar year only. It will be decided by the Chairman or the Head of the Institution from time to time.
In respect to those administrative officers who joined during the middle of the calendar year , earned leave shall be credited at the proportionate rate of $21 / 2$ days for HODs and Chief Librarian and for Principal, Director, Registrar, Deans $11 / 2$ days for each completed month of service.
The credit for the half year in which an Administrative Officer is due to retire or resign from service shall be afforded at $21 / 2$ days for each month of service up to the date of retirement or resignation, subject to a maximum of 30 days in case of HODs and Chief librarian and $11 / 2$ days for Principal, Director, Registrar, Deans subject to maximum of 21 days. When an administrative officer is removed from the service or dies while in service, the credit of earned leave shall be allowed at $21 / 2$ days for each month of service up to the date of retirement or resignation,
subject to a maximum of 30 days in case of HODs and Chief librarian and $11 / 2$ days for Principal, Director, Registrar, Deans subject to a maximum of 21 days. While affording credit of earned leave, fraction of day shall be rounded off to the nearest day.

## MATERNITY LEAVE

Teaching women employees may avail Maternity leave till the completion of the semester. She may report back at the commencement of the next semester with full pay of two months only. Non-teaching women employees may avail Maternity leave up to 90 days, both pre-natal and post -natal with full pay for two months only. Maternity leave is not admissible to a married woman having two or more living children. Maternity leave is admissible only twice in the entire service period of a woman employee including maternity leave sanctioned in case of miscarriage.
Woman employees appointed on purely temporary basis or with less
than 2 years of service are not entitled for such leave.
Maternity leave shall be granted on the condition that such employee shall serve or shall have served any of the institutions belonging to the New Horizon Educational Institution for a period not
Less than two continuous years, failing which her leave shall be considered as "leave with loss of pay".
Maternity Leave benefits will be given on returning to work. Woman employee returned back after maternity period, if resigns within one academic year, shall pay the benefits received during maternity period.

## 9.Vacation:

Staff Members are permitted to avail Summer/Winter Vacation on the following conditions.
(i)The eligible period of vacation for Teaching Staff Members is as follows.
(ii).Vacation period shall include Saturdays, Sundays and holidays(preceding, succeeding and in between).

## TEACHING STAFF MEMBERS

| Experience <br> within the <br> Institute | Summer <br> Vacation | Winter <br> Vacation |
| :---: | :---: | :---: |
| One year <br> completed | 04 weeks | 01 week |
| Six months <br> completed | 02 weeks | NIL |

NON-TEACHING STAFF MEMBERS

| Experience <br> within the <br> Institute | Summer <br> Vacation | Winter Vacation |
| :---: | :---: | :---: |
| One year <br> completed | 02 weeks | NIL |
| Six months <br> completed | 01 week | NIL |

Non-Teaching Staff Members are not eligible for winter vacation.
The vacation shall start on any day of the week, but the last day of the vacation shall not fall on Fridays, Saturdays and Sundays and also

#### Abstract

the first day shall not fall on a Monday. Staff Members must submit joining report to the Principal on the next day of completion of vacation. Staff Members shall be permitted to attend Central Valuation duty only during vacation period. The period of Examination duty spent during vacation will be treated as vacation and not as OD. If a Staff Member is "Absent" for duty, for more than 2 times, the vacation will be deducted from his/her account at a ratio of $1: 2$ (i.e., for 1 day absent, 2 vacation days to be deducted).

## 10. On Duty:

(i).Teaching Staff Members shall be permitted to avail ON DUTY for a maximum period of 10 days for University Examination duty purpose and 5days for attending FDP/Workshop/Conference/Symposiums/Seminars etc. in an academic year. ON DUTY shall be availed only with prior approval of the Head of the Institution (Principal)
(ii).Teaching Staff Members who are deputed for specific purpose on "Other Duty" should submit a detailed report to the Principal about the purpose for which they are deputed, on the next day without fail.
(iii).The Staff Members who are proceeding on "Other Duty" with the approval of Principal should produce the "Attendance Certificate" immediately on the date of joining the duty after availing "OD".

## 11.Conduct and Discipline:

The Management/Trust shall be at liberty to take necessary disciplinary action against any Staff Members for valid reasons. In such cases a formal enquiry shall be conducted and penalties like ceasing increments, ceasing promotions, dismissal from service etc. may be imposed, whenever and wherever required, based on the enquiry report.

## 12.Awards / Incentives for Staff Members and Students:

## Certification:

Students who secure $1^{\text {st }}$ place in class (University Exam) will be awarded - with Merit Certificates. Students having 100\% attendance in each academic year will be awarded with Merit Certificates.

Staff Members who continue rendering their services to the Institution for a consecutive period of 10 years and 15 years will be awarded with appreciation certificates.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Cash Prizes for Academic performance by the students:

Students obtaining University First Rank in any branch
Rs. 75,000/-
Students securing any of the University Ranks from $2^{\text {nd }}$ to $20^{\text {th }}$ in any branch Rs. 20,000/-

For students securing any of the University Ranks from $21^{\text {st }}$ to $50^{\text {th }}$ in any branch Rs. 10,000/-

For students securing Highest Mark in any of the theory subjects in University Exam

## Cash Prizes for Staff Members for result oriented Performances:

Table B.10.2b

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 10.2.1. Adequacy of budget allocation(10)

Much a head of the beginning of the Financial year the Heads of the departments submit the budget Proposals relating to their department to the Principal. The proposals cover both recurring and non recurring expenditure keeping in view the academic requirements. Principal coordinates and submit the proposals to the Governing Body for its approval. The approved budget proposals are communicated to the HODs for strict compliance. This college is having sufficient operational and development budget sanctioned by the Governing Body every financial year.

Never a department suffered from any inadequacy of funds for their expenditures. If the funds are required for further expenses beyond the budget allocation the Management is always ready to provide the amount either from the funds of the society or through bank loans.

The College allocates Budget adequately every year for various requirements as follows:
1). Infrastructure facilities Library
2).Laboratory equipment Laboratory consumables
3).Salary of Teaching and Non Teaching Staff Maintenance and Spares
4).R\&D
5). Training and Travel
6).Other Miscellaneous Expenses...etc

### 10.2.2. Utilization of allocated funds(15)

Periodical careful monitoring is being done by the Principal about the utilization of the Budget sanctioned on various heads. Quarterly review by Governing Body also makes the HODs to utilize the funds allotted to their departments. The cursory glance of the audited statements of the college clearly indicates that the funds are being spent as per the sanction. There was no last minute rush to spend the amount sanctioned.

The Budget so allotted by the Governing Body is utilized diligently by the concerned departments. The Purchase Orders from the Various Suppliers are called for and the Selection of the Supplier is done on the basis of

- 1).Quality
- 2).Reliability of services Terms and conditions Delivery time
3). Cost etc.

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

The Budget is sanctioned by the Principal and amount is paid to the Suppliers upon the verification of the Stock and Working Condition ( as approved by the In charge / HOD) In case of Travelling or Sanction of Funds for participating in Seminars Workshops the fund will be granted on the basis of Request of the faculty duly approved by the HOD. At the end of every year the In charges/ HODs need to submit a report of Budget Sanctioned and Funds Utilized with Variance Analysis of the same.

The following is the detailed information on the utility of budget for the various assessment years

| Academic <br> year | $2020-21$ | $2019-20$ | $2018-19$ | $2017-18$ | $2016-17$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Utilization of <br> budget <br> $(\%)$ | 91.7 | 96.8 | 97.2 | 92.3 | 93.1 |

### 10.2.3. Availability of the audited statements on the institute's website(5)

The institution needs to make audited statements available on its website)

Yes. The Audited Statements of past Four (04) years are available on College website Audited statement for the year 2019-20 is available on College website

Audited statement for the year 2020-21 is available on College website Audited statement for the year 2018-19 is available on College website Audited statement for the year 2017-18 is available on College website Audited statement for the year 2016-17 is available on College website College website www.kitskodad.in (http://www.kitskodad.in/)

### 10.3. Program Specific Budget Allocation, Utilization(30)

Total Budget at program level: For CFY, CFYm1, CFYm2 \& CFYm3
CFY: Current Financial Year,
CFYm1 (Current Financial Year minus 1),
CFYm2 (Current Financial Year minus 2) and
CFYm3 (Current Financial Year minus 3).

DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

Table B.10.3b

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

### 10.3.1 Adequacy of budget allocation(10)

The department committee, will much a head of the commencement of the financial year submits the department budget under the Heads specified taking in to consideration of all factors. The budget proposed was discussed, approved with or without modifications by the College Governing Body usually the department never feels any in adequacy in the supply of funds were allotted by the Governing Body.
1). The Program allocates sufficient budget for every academic year for both recurring and nonrecurring expenses.
2). The budget takes into consideration all the aspects such as laboratories, department library,
3). Purchase of new devices and equipment for all the JNTUH affiliated labs.
4). The budget is also allocated for the overall development of students and faculty members which includes the membership of students towards Professional body memberships such as ISTE, IETE, etc.
5). Laboratory equipment, Software are regularly updated and well maintained to meet the curriculum requirements. Center for Excellence is helping students to excel and this lab is regularly updated according to students' needs.
6).R\&D is given equal priority and regular budget allocation will be given for research and development of both faculty and students.
7).Training and travel is another important area .Training includes, conducting FDPs (Faculty Development Programs), Workshops, Conferences and Guest lectures.
8).Travel includes industrial visits and attending the above mentioned programs in other institutions. The Institute gives highest priority for the training programs. Proper budget allocation will be given for training and travel.
9).Miscellaneous covers Departmental Technical Symposiums, Cultural events, food arrangements for guests, ambiance and others...etc

### 10.3.2. Utilization of allocated funds(20)

(Program needs to state how the budget was utilized during the last three assessment years)
The following is the detailed information on the utility of budget pertaining to the Department for various assessment years

| DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Academic <br> year | $2020-21$ | $2019-20$ | $2018-19$ | $2017-18$ | $2016-17$ |
| Utilization <br> of budget <br> $(\%)$ | 69 | 79 | 78 | 83 | 74 |

### 10.4. Library and Internet(20)

10.4.1. Quality of learning resources (hard/soft)(10)

KITSW has a spacious and well furnished Library. The details of library area and other details are presented below:
A).LIBRARY AREA PARTICULARS.

| Library Area Particulars |  |  |
| :--- | :--- | :--- |
| Total Seating capacity: 120 |  |  |
| pNO |  |  |
| 1 | Total area of the library | Area <br> sq.mts |
| 2 | Layout of the library for individual reading <br> carrels | 2866 sq.mts |
| 3 | Layout of the library for lounge area for <br> browsing and relaxed reading: | 233 sq.mts |
| 4 | Layout of the library for IT zone for <br> accessing e-resources Digital LIBRARY | 47 sq.mts |

Library racks accommodates 18557 Volumes of books

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

B.Facilities available in the College Library:

The following facilities are available in the library:

| Facilities in the College Library |  |  |
| :---: | :--- | :--- |
| SNO | Facility | Description |
| 1 | Total Seating Capacity | 120 |
| 2 | Digital LIBRARY | 15 Computers |

F).Details of Library Automation

The software of Library Automation (KOHA) is to suit the needs of the Students. Through this system the user can search about a book and its position/condition. At this library all the books are labeled with barcode which helps in faster identification of the document.

The application generally consist of the following features such as
1.Use of Barcode Technology for issue and return of books introduced
2.Entry of New Books
3. Maintenance of Journals \& Magazines
4.OPAC enquiries for users
5.Stock Details
G). Details of books purchased:

## DEPARTMENT OF COMPUTER SCIENCE \& ENGINEERING

## Quality of learning resources

The institution has a well-stocked Central Library and a separate library for each department is equipped with a Departmental library. These libraries are facilitated with books, magazines, journals, e-learning materials, CDs/DVDs, Project Reports etc. to augment the teaching-learning process. The Central Library functions from 8.00 a.m. to 8.00 p.m. on all working days. The Digital Library services provide access to e-resources through the college Internet

The following other facilities available in the Central Library:
1). Reference books.
2).Project reports. Online question bank. Journals.
3).magazines like competition success... etc Competitive books.
4).News paper.
5).Wi- Fi connectivity

## Annexure-I <br> PROGRAM OUTCOMES (POs)

Engineering Graduates will be able to:
9. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
10. Problem analysis: Identify, formulate review research literature and analyze complex engineering problems reaching substantiated conclusions using first principle of mathematics, natural science and engineering science.
11. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
12. Conduct investigations of complex problems: Use researchbased knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
13. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
14. The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
15. Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
16. Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
13. Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
14. Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
15. Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
16. Life-long learning: Recognize the need for, and have the preparation and ability
to engage in independent and life-long learning in the broadest context of technological change.

## Program Specific Outcomes

A graduate of the Computer Science and Engineering Program will be able to:

## PSO-1:

Computing Techniques: Apply the knowledge about principle of programming languages, computer algorithms, databases, system software and computer network for the interconnection.

## PSO-2:

Computer product and Application Development: Interpret and analyze the problem, formulate an efficient hardware and software solution for the real world. Socio - industry related problems and needs using computing methodologies and latest technologies.

## PSO-3:

Successful Career and Entrepreneurship Perspectives: Fulfilling desire by attaining employment, excel in competitive examinations, higher studies, research and initiate startups.

[^0]:    1

[^1]:    Program Specific Outcomes (For the Assessment Year 2017-18, 2018-19, 2019-20,2020-2021)
    A graduate of the Computer Science and Engineering Program will be able to:

[^2]:    2.67

[^3]:    . Actions taken based on the results of evaluation of relevant POs (The attainment levels by direct (student performance) are to be presented through Program level Course - PO matrix as indicated)
